68	MORGAN MILWAUKEE 4 3/4" VICE	MORGAN MILWAUKEE 50" VICE
69	KALAMAZOO INDUSTRIES Vertical belt sander with BALDOR-RELIANCE .5 hp motor	BALDOR-RELIANCE 5HP INDUSTRIAL MOTORIZED BELT GRINDER
70	DAREx 1/3HP 3450RPM DRILL SHARPENER/BENCH GRINDER	DAREx 1/3HP 3450RPM DRILL SHARPENER/BENCH GRINDER
71	JET 3/4 HP BELT SANDER/DISC GRINDER MODEL JSG-98	JET 3/4 HP BELT SANDER/DISC GRINDER MODEL JSG-98
72	LINCOLN ELECTRIC POWER MIG 260 Welder. TANK NOT INCLUDED	LINCOLN ELECTRIC POWER MIG 260 Welder. TANK NOT INCLUDED
72A	Oxy-Acetylene Torch Kit with Attachments (Tanks NOT included)	Includes torch handle, regulators with gauges, hoses, welding and cutting tips, heating/brazing tips, and assorted torch attachments. Ready for welding, cutting, or brazing applications. Cylinders not included.
73	Miller Bobcat 225 Generator • Welder	Miller Bobcat 225 AC/DC 8500 Watt Generator • Welder
75	LAWSON PRODUCTS TOOL STORAGE SYSTEM WITH (9) DRAWERS	LAWSON PRODUCTS TOOL STORAGE SYSTEM WITH (9) DRAWERS
76	Metal Tool Bench With Steel Supports	Metal Tool Bench With Steel Supports
77	CLAUSING IBERDRILL TL-25 19.68" FLOOR DRILL PRESS GEAR HEAD DRIVE ADJUSTABLE WORK TABLE AND BASE	CLAUSING IBERDRILL TL-25 19.68" FLOOR DRILL PRESS GEAR HEAD DRIVE ADJUSTABLE WORK TABLE AND BASE
78	CHEVALIER FSG-618M MANUAL SURFACE GRINDER FLOOR SIZE 74.8" x 55.1" x 83.9" TABLE SIZE 5.9" x 18.1" 60Hz 3450 RPM/50Hz 2850 RPM	CHEVALIER FSG-618M MANUAL SURFACE GRINDER FLOOR SIZE 74.8" x 55.1" x 83.9" TABLE SIZE 5.9" x 18.1" 60Hz 3450 RPM/50Hz 2850 RPM
79	BRIDGEPORT 9" x 42" MILLING MACHINE MODEL 8239	BRIDGEPORT 9" x 42" MILLING MACHINE MODEL 8239 [Lot 79A Kurt vise sold as separate item, not included with Bridgeport mill]
79A	6" Kurt Vise	6" Kurt Vise Model D688
80	EDISON-I340GH PRECISION ENGINE LATHE	EDISON-1340GH PRECISION ENGINE LATHE Approx: 14" Swing over Bed, 36" between centers
80A	4-Jaw Independent Lathe Chuck – Heavy-Duty Steel	Precision 4-jaw independent lathe chuck for securely holding irregular or square workpieces. Heavy-duty steel construction.
81	HUSKY 5-Drawer Wheeled Tool Cabinet 18" x 36" x 33" With Contents	HUSKY 5-Drawer Wheeled Tool Cabinet 18" x 36" x 33" With Contents
82	METAL SHELVING 18" x 48" x 72" WITH CONTENTS	METAL SHELVING 18" x 48" x 72" WITH CONTENTS
83	Lot of (5) Drill Bit Storage Cabinets – Loaded with Assorted Drill Bits & End Mills	Multiple metal storage cabinets filled with assorted drill bits, end mills, countersinks, and cutting tools. Organized by size in labeled drawers. Used, good working condition.
84	Assorted Drill Bits, End Mills & Lyndex 5C Collets	Mixed lot including drill bits, end mills, and multiple Lyndex Corp 5C collets in original boxes. Ideal for milling, drilling, and precision holding applications. Used, good condition.
86	Assorted Cutting Tools, End Mills, Drill Bits & Tooling Accessories	Large mixed lot of cutting tools including end mills, drill bits, reamers, and assorted tooling accessories from various brands.
87	Lot of assorted SDS & SDS-Max Drill Bits	Mixed set including Milwaukee SDS Plus bits, Milwaukee SDS Max bits, HLOFIZI 5-piece SDS Max bit set, and assorted masonry/concrete drill bits.
88	Assorted Gear Pullers & 3-Piece Set	Mixed lot of adjustable gear pullers and a boxed 3-piece set for removing gears, pulleys, and bearings in automotive and machinery applications.
89	Starrett Precision Steel Pin Gage Set and Steel Jigs	Starrett Precision Steel Pin Gage Set (.061-.250) and Steel Jigs

90	LOT OF (6) Scotch-Brite 8"x3/8"x3" Grade 85 FIN 4500 RPM Deburring Wheels And (14) NORTON Rapid Finish 4500 RPM Deburring Wheels	LOT OF (6) Scotch-Brite 8"x3/8"x3" Grade 85 FIN 4500 RPM Deburring Wheels And (14) NORTON Rapid Finish 4500 RPM Deburring Wheels
91	LOT OF ASSORTED GRINDING WHEELS	LOT OF ASSORTED GRINDING WHEELS
93	ASSORTED DRILL VICES	ASSORTED DRILL VICES - PALMGREN, ETC.
94	KEYENCE Safety Light Curtain Model: GL-R44H Hand Protection Type, 44 Optical Axes (New Unused)	KEYENCE Safety Light Curtain Model: GL-R44H Hand Protection Type, 44 Optical Axes (New Unused)
95	LOT OF (2) Legacy Workforce PRO Grace Heavy Duty Pistol Grip Grease Guns Model: L1325 (New Unused)	LOT OF (2) Legacy Workforce PRO Grace Heavy Duty Pistol Grip Grease Guns Model: L1325 (New Unused)
96	LOT OF (5) NORBAR ADJUSTABLE INTERCHANGEABLE HEAD TORQUE BARS	LOT OF (5) NORBAR ADJUSTABLE INTERCHANGEABLE HEAD TORQUE BARS
97	LOT OF ASSORTED WRENCHES/SPANNERS	LOT OF ASSORTED WRENCHES/SPANNERS
98	LOT OF ASSORTED RATCHETED PIPE/TUBING CUTTERS	LOT OF ASSORTED RATCHETED PIPE/TUBING CUTTERS
99	LOT OF ASSORTED METRIC AND IMPERIAL SOCKETS	LOT OF ASSORTED METRIC AND IMPERIAL SOCKETS
100	LOT Of ASSORTED LyndexCorp Collets and LMT ONSRUD, VORTEX, and Precision Reamers	LOT Of ASSORTED LyndexCorp Collets and LMT ONSRUD, VORTEX, and Precision Reamers
101	ROPER WHITNEY No. XX Hand Punch Kit	ROPER WHITNEY No. XX Hand Punch Kit
102	LOT OF ASSORTED REAMER AND PUNCH BITS	LOT OF ASSORTED REAMER AND PUNCH BITS
103	PALMGREN 1/2 TON ARBOR PRESS	PALMGREN 1/2 TON ARBOR PRESS
104	Rope, Chain, and Bolt Cutters	Includes a spool of yellow braided rope, yellow coated chain, metal link chain, and heavy-duty bolt cutters.
105	Lot of (25+) Conveyor Rollers with Hose Attachment	Steel conveyor rollers with hex shafts, approx. 12" length x 1.9" diameter, includes attached hose assembly.
106	Lot of Assortd Electrical Wire and Cable on Spools with Rack	Assorted gauges and colors of electrical wire and cable on metal and wooden spools, stored on a vertical steel rack; includes various lengths of insulated copper and multi-strand wiring. Approx. rack dimensions: 36" W x 24" D x 84" H.
107	LOT OF (5) SPANNER WRENCHES SIZES 1 1/2" - 2"	LOT OF (5) SPANNER WRENCHES SIZES 1 1/2" - 2"
108	LOT OF ASSORTED GRELLER POSITIONING/ASSEMBLY JIGS	LOT OF ASSORTED GRELLER POSITIONING/ASSEMBLY JIGS
109	Lot of assorted Southwire Generator Adapters	Mixed lot of heavy-duty 12/3 gauge Southwire generator adapters
110	LOT OF (4) PIPE WRENCHES	LOT OF (4) PIPE WRENCHES
111	LOT OF (2) MAASDAM POW'R-PULL COMEALONGS	LOT OF (2) MAASDAM POW'R-PULL COMEALONGS
112	LOT OF (4) BOLT CUTTERS	LOT OF (4) BOLT CUTTERS
113	LOT OF (2) QEP FLOOR SCRAPERS	LOT OF (2) QEP FLOOR SCRAPERS
114	LOT OF ASSORTED CLAMPS	LOT OF ASSORTED CLAMPS
115	LOT OF (4) MURR ELEKTRONIK TORQUE SCREWDRIVERS	LOT OF (4) MURR ELEKTRONIK TORQUE SCREWDRIVERS
116	Weller Model 8200 120V 60Hz Soldering Pistol with Plastic Case	Weller Model 8200 120V 60Hz Soldering Pistol with Plastic Case
117	DeWALT 1/2" Variable Speed Reversing Drill Model DW235G	DeWALT 1/2" Variable Speed Reversing Drill Model DW235G
118	AMETEK DIGITAL TACHOMETER WITH PLASTIC CASE	AMETEK DIGITAL TACHOMETER WITH PLASTIC CASE
119	Dayton 1RWB4B 30" Commercial Air Circulator with Wall Bracket (new in box)	Heavy-duty 30-inch diameter commercial air circulator featuring a wall-mount bracket, 1/4 HP motor, 1108 max RPM, ball bearing construction, and open motor enclosure. Runs on 120V, 60Hz, with full load amps of 2.9. Weighs 52.34 lbs.
120	Assorted Industrial Circular & Cutting Blades on Rack	Collection of various industrial saw blades, cutting wheels, and specialty cutters in multiple diameters, mounted on a blue steel storage rack. Includes both toothed and smooth-edge designs, ranging from small to extra-large sizes.
121	LOT OF (2) Sections of 50.5"x18"x85.5" Metal Shelving Only CONTENTS NOT INCLUDED DELAYED PICKUP	LOT OF (2) Sections of 50.5"x18"x85.5" Metal Shelving Only CONTENTS NOT INCLUDED DELAYED PICKUP
122	LOT OF (2) 48"x17"x70" Metal Shelving only CONTENTS NOT INCLUDED, DELAYED PICKUP	LOT OF (2) 48"x17"x70" Metal Shelving only CONTENTS NOT INCLUDED, DELAYED PICKUP
123	Assorted Contents of Shelving Bay	Assorted Contents of Shelving Bay
124	Assorted Contents of Shelving Bay	Assorted Contents of Shelving Bay
125	Assorted Contents of Shelving Bay	Assorted Contents of Shelving Bay

167	(1) 50" x 18" x 84" Metal Shelf Only CONTENTS NOT INCLUDED DELAYED PICKUP	(1) 50" x 18" x 84" Metal Shelf Only CONTENTS NOT INCLUDED DELAYED PICKUP
168	Assorted Contents of Shelving Bay	Assorted Contents of Shelving Bay
169	Assorted Contents of Shelving Bay	Assorted Contents of Shelving Bay

186	Rolling cart with contents (for parts	Contentsfor parts include (2) Alan Bradley AC power supply part number 96426273 Approx (8) Alan Bradley Kinetix 6000 Power supply servo Drive (2) aps ups back up xs1500 (2) Dell Embedded PC box 5000 (9) Alan Bradley power flex 40 P
187	(6) castor technology corporation boxes of (new unused) polyurethane casters	Various sizes
188	SKYHOOK Hand Operated Crane Counterweighted Cart and 1 Ton Chain Hoist	SKYHOOK Hand Operated Crane Counterweighted Cart and 1 Ton Chain Hoist
189	Lot of Assorted Varios Rubber Drive Belts	Industrial shelving unit with contents
190	18" x 31.5" x 35" Rolling Metal Cabinet with Assorted Tools and Contents	18" x 31.5" x 35" Rolling Metal Cabinet with Assorted Tools and Contents
191	Plastic Cart with Assorted Tools and Contents	Plastic Cart with Assorted Tools and Contents
192	95" x 48" x 39" Rolling Work Table CONTENTS NOT INCLUDED DELAYED PICKUP	95" x 48" x 39" Rolling Work Table CONTENTS NOT INCLUDED DELAYED PICKUP
193	Pallet of Assorted ULINE Plastic Shelving Bins	Pallet of Assorted ULINE Plastic Shelving Bins
194	Ballymore Industrial Rolling Safety Ladder – 8 Step with Handrails	Platform at approx 80 in. Overall height approx 112 in.
195	48" x 120" x 38.5" Rolling Metal Work Table CONTENTS NOT INCLUDED DELAYED PICKUP	48" x 120" x 38.5" Rolling Metal Work Table CONTENTS NOT INCLUDED DELAYED PICKUP
196	Standard Industrial Pallet Racking	Post height 120' Width 102.5" Depth 42"
197	(5) Heavy Duty Filing cabinets with assorted wheels and wheel accessories	(5) Heavy Duty Filing cabinets with assorted wheels and wheel accessories
198	Louisville heavy duty step ladder	Louisville heavy duty step ladder
199	Dayton 1RWB4B 30" Commercial Fan	A heavy-duty 30-inch diameter commercial air circulator designed for large spaces such as warehouses, workshops, and industrial facilities.
200	DOMINO Ax350i CONTINUOUS INKJET Printer	DOMINO Ax350i
201	NIGHT OWL 1080P HD Wired Security System with (4) Cameras, 8 Channel DVR and 1TB HDD (New Unused)	NIGHT OWL 1080P HD Wired Security System with (4) Cameras, 8 Channel DVR and 1TB HDD (New Unused)

202	Workplace First Aid Center w/ Bloodborne Pathogen Kit	Fully stocked wall-mounted industrial first aid center with OSHA-compliant bloodborne pathogen protection kit. Includes eyewash, CPR barrier, burn dressings, trauma pads, cold packs, gauze, nitrile gloves, splinter tools, and more. Ideal for manufacturing, warehouse, or commercial settings.
203	36" x 126" x 38" Wood Topped Metal Work Table With Attached Vice OTHER CONTENTS NOT INCLUDED DELAYED PICKUP	36" x 126" x 38" Wood Topped Metal Work Table With Attached Vice OTHER CONTENTS NOT INCLUDED DELAYED PICKUP
203A	Medi-First Wall-Mount First Aid Cabinet	Wall-mounted steel first aid station partially stocked with workplace essentials: bandages, burn cream, antiseptics, eyewash, cold spray, CPR barrier, and more.
204	Lab Safety Supply Lockout Tagout Station Cabinet (Wall-Mount)	Heavy-duty wall-mounted Lockout/Tagout (LOTO) cabinet by Lab Safety Supply. Includes a large variety of used and partially bagged lockout devices: ball valve lockouts, plug lockouts, circuit breaker lockouts, hasps, tags, cable lockouts, and signage. Ideal for industrial compliance and safety maintenance programs.
205	Pair of commercial-grade wall-mount soap/sanitizer dispensers.	Pair of commercial-grade wall-mount soap/sanitizer dispensers.
206	Rolling Industrial Wire Spool Cart w/ Assorted THHN Electrical Wire (Multiple Gauges & Colors)	Heavy-duty mobile wire dispensing rack loaded with assorted electrical wire spools. Includes various gauges (primarily 10 AWG and 12 AWG), THHN solid and stranded, in multiple colors.
207	Lot Of Assorted Metal Stock	Various Materials Square Bar Round and Flat Stock. copper, aluminum & steel
208	Custom Pneumatic Panel Weep Hole Punching Station – Foot Pedal Operated, Milgard Spec	Heavy-duty fabricated weep hole punching machine for window panel processing, designed to Milgard specifications. Includes foot pedal actuation, pneumatic system with regulator, interchangeable punch dies (labeled SH, DV/MV Lock, etc.), and quality inspection visual aid. Mounted on a stable steel frame with safety shield, component guides, and integrated work-holding hooks. Roughly 31W" x 26D"x 66H"
209	Custom Milgard Tool & Die Punch Station – Trinsic Lead Stile Balancer & Track Notchback Punch	Custom made heavy-duty Milgard pneumatic punch station designed for processing Trinsic lead stile components, including balancer and track notchback operations. Equipped with NITRA AVS-5212-D-HL valve, Speedaire air system, Flexiblok regulator setup, and balance/vent control interface. Stand-mounted with integrated wiring and air lines. Roughly 31W" x 22D"x 66H"
210	Custom Milgard Tool & Die Trinsic Fixed Interlock Weep & Notchback Punch Station	Custom, Pneumatically driven punch station, including fixed 45° and 90° notchback punches and SH/HH weep operations. Manufactured by Milgard Tool & Die, Tacoma, WA. Standalone frame with integrated sample holders and airline hookup. Roughly 30W" x 19D"x 63H"
211	Custom Milgard Clip Back Punch – Pneumatic Foot Pedal-Operated	This is a custom Milgard Clip Back Punch station (Model VX8108), used for notching 45° clip backs on HV/SH profiles. It features a rugged steel frame, pneumatic actuation with foot pedal control, and dual air filter-regulator units mounted to the frame. Roughly 19" W x 22" D x 63" H
212	Custom Milgard Trinsic Fixed Sash Weep & Pilot Hole Pneumatic Punch Station	Custom Milgard Tool & Die V-Punch for Trinsic fixed sash profiles, designed to create weep holes and pilot holes in wood and composite frames. Pneumatic-powered with foot pedal activation, debris tray, integrated regulator/lubricator, and built-in power outlets. Dimensions approx. 25" W x 22" D x 65" H.
213	Custom Pneumatic Combination Sash Punch – Milgard V52	Custom Heavy-duty pneumatic combination sash punch. The yellow steel frame features five integrated punch stations, foot pedal actuation, airline regulator, and safety guards. Ideal for window or sash frame fabrication. Dimensions (Approx.): Height: 63 in Width: 35 in Depth: 19 in
214	Pistorius IMR Trinsic Pneumatic Shaper	Heavy-duty Pistorius Machine Co. IMR Trinsic pneumatic shaper, model C5. Industrial-grade unit equipped with dual pneumatic cylinders, push-button start/stop controls, and safety enclosures. Designed for shaping aluminum, wood, or plastic. Front control panel with vacuum port, main shutoff, and cycle initiation. Appears to include dust collection port and side-access panel for maintenance. Lockout/tagout box installed for safety. Multiple air lines indicate advanced pneumatic function.

215	Pneumatic Crimping Machine – Milford V52 HV/DV	Pneumatic crimp machine from Milford Manufacturing, model V52 HV/DV, built for high-volume and dual-voltage crimping applications. Fully enclosed in a yellow steel safety cage and mounted to a robust blue base. Fitted with power leads and a control unit for reliable factory use. Barcode-labeled and asset-tagged, this industrial-grade unit is ideal for cable harness or terminal processing operations. Dimensions roughly 18" W x 22" D x 40" H
216	Custom Pneumatic Punch Station – Special Frame Weep	Pneumatic punch station, designed for special frame weep applications. Includes dual punch blocks housed in a reinforced yellow safety cage mounted on a blue steel base. Integrated pneumatic components and hoses feed into a control unit. Includes visual punch diagram and parts pouch on frame.
217	Pistorius MN-4244 Double Miter Saw	Heavy-duty dual-blade Pistorius MN-4244 double miter saw with integrated safety guard. Ideal for high-precision cuts in aluminum, vinyl, or wood frame applications. Powered and wired with all attached air lines and cables included.
218	Custom Pneumatic Interlock Notchback Punch Machine	Milgard Tool & Die V52 interlock notchback punch designed for creating precision notches in aluminum or vinyl profiles. Pneumatically operated via foot pedal with dual punch heads, safety guard, and labeled dies. Includes FRL (filter, regulator, lubricator) assembly and mounted visual references for correct notch patterns.
219	Pistorius MN-200 double miter saw with dual blades, vertical configuration.	Heavy-duty dual-head saw for precision miter cuts. Equipped with a transparent guard and visible dual circular blades. Includes pneumatic foot pedal activation.
220	DeWalt 12" Compound Miter Saw Model: DWS175 with Metal Table	DeWalt 12" Compound Miter Saw Model: DWS175 with Metal Table
221	DeWALT Double Bevel 12" Compound Miter Saw Model: DWS716 with Metal Table and Pneumatic Vice System	DeWALT Double Bevel 12" Compound Miter Saw Model: DWS716 with Metal Table and Pneumatic Vice System
222	ASLAN MACHINE Model: KMY-213 End Shaper/Miller	ASLAN MACHINE Model: KMY-213 End Shaper/Miller
225	MILGARD L-Bracket Dimple Punch	For models VX5173, VX5094, VX6306, and VX8405
226	MILGARD Pneumatic L-Bracket Dimple Punch	For models VX5173, VX5094, VX6306, and VX8405
227	PISTORIUS 16" Frame Saw Model: MN-400	Pneumatic Foot Pedal Operated
228	MILGARD V150/V520 Pneumatic Centering Device	MILGARD V150/V520 Centering Device
229	Genie Superlift Advantage Manually Operated Winch Lift Model: SLA-10	Telescoping 11' 5.5" Mast, 1000lb Weight Capacity
230	ATECH IMR End Shaper	ATECH IMR End Shaper
231	ATECH IMR End Shaper	ATECH IMR End Shaper
234	OutFeed Conveyor Belt (Rollforming Line)	Foot controlled outfeed conveyor belt
234A	MILGARD MANUFACTURING Deburring Machine and Dust Collection System	Includes modular safety cage
237	LEWCO HEAT-PRO Steam Rated Oven Carbon Steel	HEAT-PRO Oven HPEC04L Interior Dimnesions Approx 50" L x 55 1/2" W 54 1/4 Hq, carbon steel internals, steam heated rated 200 psi max steam pressure
239	PISTORIUS Miter Saw with Guard Enclosure	Pneumatic foot pedal operated; SAW-PISTORIUS, 90 DEG ALUMINUM
240	MILGARD MANUFACTURING Z-BAR PUNCH	Pneumatic switch controlled
241	Custom punch, Milgard V4 Black Picture Window Punch	Custom punch, Milgard V4 Black Picture Window Punch With Vent
244	Rohner Paint Booth	Dual Roll Up Doors 120" W x 120 H Interior dimensions 10' H x 24' L x 17' W Exterior Dimensions: 27' L x 25' 122" H
245	Rohner Industrial Curing Oven / Finishing Booth	Large walk-in curing oven with insulated walls and dual roll-up doors for drive-through access. Equipped with Rohner Operator Process Control system and Schneider Electric Magelis touchscreen interface for temperature and cycle management. Ideal for powder coating, paint curing, or industrial drying applications. Double Rollup Door Dimensions: APPROX: 119"W x 119"H Interior Dimensions: APPROX 139.5"W x 239.5"L x 123"H Exterior Dimensions: APPROX 191"W x 261"L x 148"H

246	Custom Rohner Enclosed Paint Mixing Room with Ventilation System	Contents Not Included Industrial-grade enclosed paint mixing room designed for safe handling, preparation, and storage of by. Constructed with sealed interior walls, and integrated fluorescent lighting. Features dedicated ventilation system with overhead exhaust ducts and rooftop stacks for safe removal of fumes. Includes labeled storage areas (spray guns, liquid storage cabinet), mixing station, and fire extinguishers for compliance with finishing operations standards. Exterior Dinensions: APPPROX 83" W x 220"L x 116.5"H Interior Dimensions: APPROX 72"W x 216"L x 96"H
247	amerikooler Modular Walk-In Refrigerator	Industrial walk-in cooler/freezer by Amerikooler. Constructed with insulated panels and heavy-duty door with secure latch. UL-listed with integrated door heater, lights, and electrical connections for reliable operation. Includes factory schematics for freezer and cooler door wiring, ensuring straightforward service and compliance. Suitable for cold storage in commercial, industrial, or finishing operations Exterior Dimensions: APPROX 71"W x 143"L x 86"H 162.6"w 82"H x 133" L
248	1/2 Ton CraneVeyor TranStation Freestanding Overhead Bridge Crane	1/2 Ton CraneVeyor TranStation Freestanding Overhead Bridge Crane. With 1/2 Yale Hoist Pendant Controlled 150" Travel 228" Span 162" Post Height (Vacuum Lift attached to crane not included)
249	ANVER 250LBS Vacuum Lift	ANVER 250LBS Vacuum Lift Model ET50M4-61-2/44
250	Highlight Synergy 2.5 Pallet Stretch Wrapping Machine with light guards and Conveyor Turntable	Automatic stretch wrap machine by Highlight Industries, model Synergy 2.5. Features integrated conveyor turntable with roller system and ramp for pallet handling. Control panel includes programmable cycle counter, top/bottom wrap counters, adjustable carriage speed, film force control, and auto-banding mode. Designed for high-volume warehouse and shipping operations, ensuring consistent pallet stability and load security. APPROX dimensions: Table: 57.5" Conveyor: 121"L x 16"W Overall footprint: 188" L x 173"W x 142" H
251A	2020 Billco 96" Level IV Convection Glass Furnace	Manufacturer: Billco Manufacturing, Inc. Model: 96" Level IV – Convection Furnace Electrical: 480V / 60Hz / 3PH (No Neutral), 200A Service Work Order Reference: WO20029 This Billco 96" Level IV Convection Furnace is an advanced glass heating system engineered for precision thermal processing in architectural and insulated glass production environments. The design supports high-efficiency convection heating for improved temperature uniformity and throughput, while maintaining compatibility with large-format glass up to 96 inches wide. Key design and operational features include: Convection-based emitter array for even glass heating and consistent results Removable emitter assemblies for ease of maintenance (drive-side removal possible after component clearance) Flexible auxiliary connections (power and air via flexible conduit and hoses) for simplified installation Floor track and drive-side access configuration Anchor bolt locations provided for reference (to be field-verified prior to installation) Utility requirements per manufacturer: Electrical: 480V / 60Hz / 3Ph, 200A (no neutral) Air: ½" line, 5 CFM This description is based on information provided by the manufacturer in Work Order Reference WO20029 and is offered for general reference only. All specifications, dimensions, and components are approximate and subject to variation. Buyers are responsible for verifying all ancillary and integrated systems. In-person inspection is highly recommended prior to bidding to confirm accuracy, configuration, and overall condition.

251B	2020 Billco 96" Foundation Series Glass Washer Line	Manufacturer: Billco Manufacturing, Inc. Model: 96" Foundation Series Washer Line Electrical: 480V / 60Hz / 3PH (No Neutral), 100A Service Work Order Reference: WO20018 This Billco 96" Foundation Series Washer Line is a high-quality, precision-engineered glass washing system designed for architectural and industrial glass applications. The unit features a 96-inch pass width with non-driven infeed and exit roller decks, load and exit decks, and a passline height of approximately 36 inches. Key integrated systems include: Dual switchable mechanical filtration units DI polish and carbon/mechanical filters Blower system for efficient drying Low-E detection and anti-static bar locations Four-corner emergency stop buttons for operator safety Creep mode foot switch for manual control during setup or maintenance Stack light and electrical cabinet for control and monitoring Utility requirements per manufacturer: Electrical: 480V/60Hz/ 3Ph, 100A (no neutral) Air: ½" line, 5 CFM (required if equipped with autodrain) Water: ¾" line, 30 PSI Drain: 2" PVC drain, approximately 5" from floor Approximate overall footprint: Width: ~207" Depth: ~66" Height: ~47" (to top of electrical cabinet) Description is based on information provided by the manufacturer in Work Order Reference WO20018 and is offered for general reference only. All specifications, dimensions, and included components are approximate. Buyers are responsible for verifying all ancillary and integrated systems. In-person inspection is highly recommended prior to bidding to confirm accuracy and condition.
252	585' FT - Crane Veyor Corp Freestanding Overhead bridge Crane (4) Single Girder Hoists	Post Height: 262" in TRAVEL: 40' Ft Approx Span 585' Undersling multiple 4bay single girder pendant controlled hoists
253	Cantilever Racking System – Heavy-Duty Lumber & Material Storage	Heavy-duty cantilever racking system designed for storing long, bulky, or irregularly shaped items such as lumber, sheet goods, pipes, or steel. Multiple levels allow for efficient organization and high-capacity storage. Ideal for warehouses, lumber yards, or manufacturing facilities needing flexible, high-strength storage for oversized materials. APPROXIMATE Dimensions: Depth: 9' Height: 20' Length: 17'
254	16 Bay Cantilever Racking System – Heavy-Duty Lumber & Material Storage	Heavy-duty cantilever racking system designed for storing long, bulky, or irregularly shaped items such as lumber, sheet goods, pipes, or steel. Multiple levels allow for efficient organization and high-capacity storage. Ideal for warehouses, lumber yards, or manufacturing facilities needing flexible, high-strength storage for oversized materials [Contents Not Included] APPROXIMATE Dimensions: Depth: 4' Each Side Height: 20' Length: 17'
255	8-Bay Cantilever Racking System – Heavy-Duty Lumber & Material Storage	Heavy-duty cantilever racking system designed for storing long, bulky, or irregularly shaped items such as lumber, sheet goods, pipes, or steel. Multiple levels allow for efficient organization and high-capacity storage. Ideal for warehouses, lumber yards, or manufacturing facilities needing flexible, high-strength storage for oversized materials. 290	FOR-D Inc. Aluminum Radius Bender – Model 4D	Industrial aluminum radius bender manufactured by FOR-D Inc. Designed for precision bending of aluminum profiles, tubing, and structural materials. Equipped with three-roll bending configuration and mounted on a heavy-duty cabinet base with integrated controls. Suitable for fabrication shops, manufacturing plants, and metalworking operations requiring consistent radius forming.

291	Joseph Double Mitre Saw – Industrial Cutting Machine	Joseph industrial double mitre saw designed for high-precision cutting of profiles and framing materials. Features dual cutting heads housed under a protective hood, front-mounted operator control panel, and integrated safety shielding. Built for fabrication shops and large-scale production environments requiring accurate mitre cuts on aluminum, PVC, or similar materials
292	Wegoma AKF 125 Milling Machine	Wegoma AKF 125 end milling machine designed for high-precision cutting of aluminum profiles and framing. The unit features a robust motor, adjustable cutting head, and protective housing for safe operation. Mounted on a sturdy base stand with integrated controls, this machine is well-suited for production environments requiring consistent aluminum processing. • Manufacturer: Wegoma (Germany) • Model: AKF 125 • Serial: 850 • Power: 1.1 kW, 220–440 V, 2.6 A, 2800/min, 60 Hz • Type: Aluminum End Milling Machine • Features: Adjustable milling unit, protective housing, mounted stand, integrated controls

320	Heavy-Duty Cantilever Racks – Industrial Storage System	8 arm single sided 48" cantilever system with X bracing Set of heavy-duty steel cantilever racks with bolt-on arms, uprights, bases, and cross bracing. Designed for storing pipes, lumber, steel, or other long materials. Durable red finish, strong bolted connections. • Tower: 12' Tall • Arms: 48" Long • Base: 48" Long
321	Heavy-Duty Cantilever Racks – Industrial Storage System	8 arm single sided 48" cantilever system with X bracing Set of heavy-duty steel cantilever racks with bolt-on arms, uprights, bases, and cross bracing. Designed for storing pipes, lumber, steel, or other long materials. Durable red finish, strong bolted connections. • Tower: 12' Tall • Arms: 48" Long • Base: 48" Long
322	Heavy-Duty Cantilever Racks – Industrial Storage System	8 arm single sided 48" cantilever system with X bracing Set of heavy-duty steel cantilever racks with bolt-on arms, uprights, bases, and cross bracing. Designed for storing pipes, lumber, steel, or other long materials. Durable red finish, strong bolted connections. • Tower: 12' Tall • Arms: 48" Long • Base: 48" Long
323	Heavy-Duty Cantilever Racks – Industrial Storage System	3 arm single sided 48" cantilever system with X bracing Set of heavy-duty steel cantilever racks with bolt-on arms, uprights, bases, and cross bracing. Designed for storing pipes, lumber, steel, or other long materials. Durable red finish, strong bolted connections. • Tower: 12' Tall • Arms: 48" Long • Base: 48" Long
324	Heavy-Duty Cantilever Racks – Industrial Storage System	3 arm single sided 48" cantilever system with X bracing Set of heavy-duty steel cantilever racks with bolt-on arms, uprights, bases, and cross bracing. Designed for storing pipes, lumber, steel, or other long materials. Durable red finish, strong bolted connections. • Tower: 12' Tall • Arms: 48" Long • Base: 48" Long
325	Heavy-Duty Cantilever Racks – Industrial Storage System	3 arm single sided 48" cantilever system with X bracing Set of heavy-duty steel cantilever racks with bolt-on arms, uprights, bases, and cross bracing. Designed for storing pipes, lumber, steel, or other long materials. Durable red finish, strong bolted connections. • Tower: 12' Tall • Arms: 48" Long • Base: 48" Long
326	Heavy-Duty Cantilever Racks – Industrial Storage System	3 arm single sided 48" cantilever system with X bracing Set of heavy-duty steel cantilever racks with bolt-on arms, uprights, bases, and cross bracing. Designed for storing pipes, lumber, steel, or other long materials. Durable red finish, strong bolted connections. • Tower: 12' Tall • Arms: 48" Long • Base: 48" Long
327	Heavy-Duty Cantilever Racks – Industrial Storage System	3 arm single sided 48" cantilever system with X bracing Set of heavy-duty steel cantilever racks with bolt-on arms, uprights, bases, and cross bracing. Designed for storing pipes, lumber, steel, or other long materials. Durable red finish, strong bolted connections. • Tower: 12' Tall • Arms: 48" Long • Base: 48" Long
328	Heavy-Duty Cantilever Racks – Industrial Storage System	3 arm single sided 48" cantilever system with X bracing Set of heavy-duty steel cantilever racks with bolt-on arms, uprights, bases, and cross bracing. Designed for storing pipes, lumber, steel, or other long materials. Durable red finish, strong bolted connections. • Tower: 12' Tall • Arms: 48" Long • Base: 48" Long
329	Heavy-Duty Cantilever Racks – Industrial Storage System	3 arm single sided 48" cantilever system with X bracing Set of heavy-duty steel cantilever racks with bolt-on arms, uprights, bases, and cross bracing. Designed for storing pipes, lumber, steel, or other long materials. Durable red finish, strong bolted connections. • Tower: 12' Tall • Arms: 48" Long • Base: 48" Long

330	Heavy-Duty Cantilever Racks – Industrial Storage System	3 arm single sided 48” cantilever system with X bracing Set of heavy-duty steel cantilever racks with bolt-on arms, uprights, bases, and cross bracing. Designed for storing pipes, lumber, steel, or other long materials. Durable red finish, strong bolted connections. • Tower: 12’ Tall • Arms: 48” Long • Base: 48” Long
331	Heavy-Duty Cantilever Racks – Industrial Storage System	3 arm single sided 48” cantilever system with X bracing Set of heavy-duty steel cantilever racks with bolt-on arms, uprights, bases, and cross bracing. Designed for storing pipes, lumber, steel, or other long materials. Durable red finish, strong bolted connections. • Tower: 12’ Tall • Arms: 48” Long • Base: 48” Long
332	Heavy-Duty Cantilever Racks – Industrial Storage System	3 arm single sided 48” cantilever system with X bracing Set of heavy-duty steel cantilever racks with bolt-on arms, uprights, bases, and cross bracing. Designed for storing pipes, lumber, steel, or other long materials. Durable red finish, strong bolted connections. • Tower: 12’ Tall • Arms: 48” Long • Base: 48” Long
334	12 Slot Window Panel Storage Rolling Cart	Industrial rolling glass and panel storage cart designed for safely moving and organizing large sheets. Built with a welded steel frame, multiple vertical dividers, and slotted steel base for secure placement. Features locking swivel casters for easy mobility around shops, warehouses, and job sites. Ideal for transporting glass, stone, wood panels, or other sheet materials.
335	12 Slot Window Panel Storage Rolling Cart	130” L x 42” W : Max Pole Height 6’ Industrial rolling glass and panel storage cart designed for safely moving and organizing large sheets. Built with a welded steel frame, multiple vertical dividers, and slotted steel base for secure placement. Features locking swivel casters for easy mobility around shops, warehouses, and job sites. Ideal for transporting glass, stone, wood panels, or other sheet materials.
336	12 Slot Window Panel Storage Rolling Cart	130” L x 42” W : Max Pole Height 6’ Industrial rolling glass and panel storage cart designed for safely moving and organizing large sheets. Built with a welded steel frame, multiple vertical dividers, and slotted steel base for secure placement. Features locking swivel casters for easy mobility around shops, warehouses, and job sites. Ideal for transporting glass, stone, wood panels, or other sheet materials.
337	12 Slot Window Panel Storage Rolling Cart	130” L x 42” W : Max Pole Height 6’ Industrial rolling glass and panel storage cart designed for safely moving and organizing large sheets. Built with a welded steel frame, multiple vertical dividers, and slotted steel base for secure placement. Features locking swivel casters for easy mobility around shops, warehouses, and job sites. Ideal for transporting glass, stone, wood panels, or other sheet materials.
338	12 Slot Window Panel Storage Rolling Cart	130” L x 42” W : Max Pole Height 6’ Industrial rolling glass and panel storage cart designed for safely moving and organizing large sheets. Built with a welded steel frame, multiple vertical dividers, and slotted steel base for secure placement. Features locking swivel casters for easy mobility around shops, warehouses, and job sites. Ideal for transporting glass, stone, wood panels, or other sheet materials.
339	12 Slot Window Panel Storage Rolling Cart	130” L x 42” W : Max Pole Height 6’ Industrial rolling glass and panel storage cart designed for safely moving and organizing large sheets. Built with a welded steel frame, multiple vertical dividers, and slotted steel base for secure placement. Features locking swivel casters for easy mobility around shops, warehouses, and job sites. Ideal for transporting glass, stone, wood panels, or other sheet materials.
340	12 Slot Window Panel Storage Cart	130” L x 42” W : Max Pole Height 6’ Industrial rolling glass and panel storage cart designed for safely moving and organizing large sheets. Built with a welded steel frame, multiple vertical dividers, and slotted steel base for secure placement. Ideal for transporting glass, stone, wood panels, or other sheet materials.
341	Cornerman Rolling Ladder	52” High 5 Steps
342	Cotterman Rolling Stairs	37” High 4 Steps
343	Cotterman Rolling Stairs	37” High 4 Steps
344	ULINE Rolling Stairs	80” High 8 Steps

345	PALLET Racking	(6) Uprights 12' (13) Beams mix of APPROX 8'3" -8'4"
346	Pallet Rack	(3) uprights 12' (13) Beams APROX 8'4" (2) sheet wood decking APPROX 42"x96"
347	Pallet Racking	(7) Uprights 12' (19) beams APPROX 8' 4" Comes with Assorted wood decking and support beams
348	Pallet Racking	(4) Uprights - (2 at 12', 2 at 10') (6) Beams APPROX 10' Assorted wood decking
349	Cotterman Rolling Ladder – 4-Step with Safety Handrail	Cotterman industrial rolling ladder with 4 wide slip-resistant steps and high safety handrails. Designed with dome-style base and spring-loaded casters for secure positioning. Rated for 450 lbs load capacity. Built for warehouses, workshops, and industrial facilities needing safe elevated access.
350	Heavy-Duty Cantilever Rack Upright with Base Supports	Heavy-duty cantilever racking system designed for safe storage of long, bulky, and oversized materials. The unit features tall steel uprights with adjustable punched holes, heavy base channels for stability, and two orange cantilever arms already installed. Cross bracing adds extra rigidity, while welded base plates with square tube stubs provide options for anchoring or attaching safety braces. Ideal for warehouses, lumber yards, or metal shops storing pipes, beams, steel bars, lumber, or panels. Forklift-friendly open design allows quick loading and unloading. Dimensions: (2) standing racks APPROX 20'x15"x4" (2) Heavy Duty Floor anchors APPROX 13"x13"x74" (2) Cantilevers INCLUDING welded on guards APPROX 53" Contents NOT included
351	Heavy-Duty Cantilever Rack Frame with Base & Arms	Heavy-duty cantilever racking system designed for safe storage of long, bulky, and oversized materials. The unit features tall steel uprights with adjustable punched holes, heavy base channels for stability, and two orange cantilever arms already installed. Cross bracing adds extra rigidity, while welded base plates with square tube stubs provide options for anchoring or attaching safety braces. Ideal for warehouses, lumber yards, or metal shops storing pipes, beams, steel bars, lumber, or panels. Forklift-friendly open design allows quick loading and unloading. Dimensions: (2) standing racks APPROX 18'x15"x4" (2) Heavy Duty Floor anchors APPROX 12"x13"x72" (2) Cantilevers INCLUDING welded on guards APPROX 56" Contents NOT included
352	Pallet Racking	(7) Uprights 12' (50) Beams APPROX 8' (50) metal wire decking APPROX 46"x43" Contents NOT included
353	Pallet Racking	(7) Uprights 12' (48) Beams APPROX 8' (48) metal grate decking APPROX 46"x43" Contents NOT included
354	Pallet Racking	(6) Uprights 12' (44) Beams APPROX 8' (44) wire decking various sizes-MOST are APPROX 47"x43"
355	Pallet Racking	(7) Uprights 12' (44) Beams: (13) APPROX 8' and (31) APPROX 7' (32) Wire decking varying sizes most are APPROX 43" x46"
356	Pallet Racking	(2) Uprights 12' (2) Beams 10' (2) wire decking APPROX 43"x43"
357	Cotterman Safety ladder	Cotterman Safety ladder equipped with three wide steps and a top platform. Ladder is constructed from metal with ribbed step surfaces and reinforced side rails for added stability. Includes full-length handrails and spring-loaded caster bases that retract under weight for secure footing. Manufacturer labels indicate a maximum load capacity of 450 lbs. Branded as Cotterman, a well-known name in industrial access equipment, and is designed for warehouse, factory, or commercial use where safe elevated access is required.
358	Rolling ladder	Heavy-duty rolling safety ladder with seven perforated metal steps, dual side handrails, and a spacious top platform. Mid-level features a built-in storage shelf. The ladder includes a locking step-release system for secure positioning during use. Designed for warehouse, industrial, and maintenance environments where stability, mobility, and height access are critical. Total height APPROX 112" Platform height APPROX 70"
359	4 Drawer Cabinet	Heavy-duty metal tools cabinet in dark gray finish. Features a locking door with storage space and three large pull-out drawers labeled for organized tool and equipment storage. Built for industrial, warehouse, or shop use.
360	Pallet Racks	(4) Uprights 10' (11) Beams 8' (1) Wire decking 42" x96" includes plywood/assorted size boards for decking

361	Pallet Racks	(4) Uprights 12' (22) Beams 9' (11) Wire decking 43" x108"
362	Ballymore 4-Step Rolling Warehouse Ladder with Handrails	Ballymore 4-step industrial rolling ladder designed for safe and stable access in warehouses, stockrooms, and industrial facilities. Constructed from metal with a blue powder-coated finish, this ladder features perforated slip-resistant steps, tall dual handrails for support, and rear rolling casters for mobility. The angled step design provides stability, while the compact footprint makes it ideal for confined spaces. Built for heavy-duty use in material handling and warehouse applications.
363	Ballymore 8 step Rolling Warehouse Ladder	Ballymore rolling ladder with six perforated metal steps and a wide top platform. Constructed with a welded metal frame, safety handrails on both sides, and a full-length guardrail at the top. Equipped with heavy-duty swivel casters and a spring-loaded safety system for mobility and secure positioning. Steps are designed with slip-resistant perforations for added traction. The ladder is finished in industrial gray paint and includes manufacturer branding on the frame.
364	Lot of (4) Assorted Ladders	This lot contains four different step stools and safety ladders. Brands identified include Uline and Louisville. One Louisville aluminum step stool is labeled with a 300 lb load capacity. Another Uline step is painted yellow and marked Made in USA. A molded white plastic step stool is included, along with one unbranded metal rolling ladder with casters and side handles. All units vary in height, step count, and material, providing a mix of compact stools and industrial rolling ladders suitable for warehouse, shop, or facility use.
365	Rolling Safety Ladder with Platform and Safety Gate	Seven step rolling safety ladder constructed from metal with perforated anti-slip steps and a top platform. Ladder includes side handrails and a full-length rear handle for added support. A safety gate with webbed straps is installed at the platform level. Equipped with spring loaded caster wheels for mobility and stabilizing feet for secure use. Platform height APPROX 70"
366	Lot of (3) Ballymore Industrial Rolling Step Ladders – 2-Step and 3-Step Lot	Set of three Ballymore rolling step ladders designed for warehouse, industrial, and commercial use. This lot includes two Ballymore 2-step rolling ladders and one Ballymore 3-step rolling ladder. All units are constructed from durable metal with blue finish, wide slip-resistant perforated steps, and integrated side rails for operator stability. Each ladder is equipped with swivel casters for easy mobility across shop floors. Ballymore branding is clearly labeled on the frames. These ladders are commonly used in distribution centers, manufacturing plants, and retail warehouses for safe elevated access.
367	LOT of (3) Assorted Step Ladders	Set of three industrial-grade step stools, each offering unique designs for safety and utility in warehouse, shop, or office environments. • Cotterman 2-Step Rolling Stool – Perforated metal steps with spring-loaded retractable casters. Curved side rails add stability. Heavy-duty design, ideal for industrial use. • 2-Step Metal Stool with Dome Casters – Classic dome-style retractable casters engage for mobility and lock when weight is applied. Worn paint and rubber tread, but fully functional. • Chrome 2-Step Stool with Safety Handle – Wide platforms, tall rear support handle, and rubber-capped legs. Great for environments where extra balance is needed.
368	Lot of (2) Cotterman Rolling Ladders	Two Cotterman industrial rolling safety ladders, each equipped with three wide steps and a top platform. Both ladders are constructed from metal with ribbed step surfaces and reinforced side rails for added stability. Each unit includes full-length handrails and spring-loaded caster bases that retract under weight for secure footing. Manufacturer labels indicate a maximum load capacity of 450 lbs. Both ladders are branded Cotterman, a well-known name in industrial access equipment, and are designed for warehouse, factory, or commercial use where safe elevated access is required.
369	ULINE Rolling Ladder	Uline rolling industrial work platform ladder with four perforated metal steps and a large top platform. The unit includes a sturdy tubular metal frame, extended side rails, and integrated casters for mobility. The steps and platform feature open-grid surfaces for secure footing. Label indicates compliance with OSHA and ANSI standards and a maximum load capacity of 450 lbs. The ladder shows normal wear consistent with industrial use. Manufacturer: Uline.

370	Cotterman Rolling Ladder	Cotterman brand rolling industrial ladder with metal frame and expanded metal steps. Features five steps, a wide top platform, and safety railings with enclosed top section. Equipped with spring-loaded casters for mobility and stationary use. "Made in U.S.A." labeling present on the frame. Suitable for warehouse, industrial, or shop applications requiring elevated access. Total dimensions APPROX: 50"x27"x93" Steps height APPROX 50"
371	Lot of (2) ULINE three step Rolling Ladders	Pair of three step, gray metal rolling platform ladders manufactured by Uline. Each ladder features three perforated steps and a top standing platform with safety rails on both sides. The ladders include a "Made in U.S.A." label and are equipped with swivel caster wheels on the rear legs and stationary posts on the front for stability. Both units are constructed with tubular framing and grated step treads for traction. Total dimensions APPROX: 41.5"x26"x61"
372	ULINE Rolling Ladder	Industrial rolling safety ladder with seven perforated metal steps for traction. The unit is equipped with full-length handrails on both sides, a small platform with safety chains at the top, and two rear wheels for mobility. Gray painted finish. Rated for 800 lbs maximum load. Made in the U.S.A. Dimensions APPROX: Total height APPROX 112" Total step height APPROX 71" Total APPROX width (including wheels: 32" Total APPROX length: 74"
373	Lot of (2) Electric Height-Adjustable Desks – Black Tops, Dual Motor Frames	Two electric height-adjustable desks with black rectangular tops. Both desks include control panels with up/down arrows and four numbered preset buttons. Each desk has a metal base with flat feet for stability. One desk has a visible power adapter and cord, while the other has a disconnected wire lead at the control box. Table top APPROX dimensions: 59.5"x23.5"
374	Electric Sit-Stand Desk with Power Outlets and Wireless Charging	Adjustable electric sit-stand desk with sleek contoured black surface, programmable height controls, and sturdy metal legs. Built-in outlets, USB ports, and a wireless charging pad provide added convenience, making it perfect for both professional and home office setups. Table top APPROX dimension: 60"x30"
375	(3) Electric Height Adjustable Standing Desks with Wooden Tops	Set of electric height adjustable standing desks with rustic wooden tops and black metal frames. Each desk includes an electronic control panel with programmable memory settings for quick adjustments between sitting and standing positions. The tops feature a natural wood finish with organizer compartments and drawers, offering both style and functionality. Built for ergonomic office or creative workspace environments, these desks provide flexibility and durability while maintaining a clean industrial aesthetic. APPROX table top dimensions: 24"x38"
376	Global industrial Computer Station	Heavy-duty Global Industrial mobile computer workstation cabinets designed for factory and warehouse use. Each unit is built from durable metal and mounted on locking casters for mobility. The layout includes an upper locking compartment with either a plexiglass monitor window or enclosed storage and a lower locking cabinet with shelving. Ventilation slots are integrated into the design, making these suitable for housing sensitive equipment or secure storage in industrial environments. Dimensions APPROX: 24.5"x22.5"x64" And 27"x49"x64"
377	Lot of (7) Global industrial Metal Shop single drawer work stations	Set of heavy-duty blue steel industrial workstations, each featuring a slanted writing surface with cubby storage, a pull-out locking drawer, and a lower shelf for additional storage. Built for factory, warehouse, or shipping/receiving use, these desks are durable and functional.
378	(19) VESTIL 42"x42" Machinery Guards	Collection of industrial steel safety guard rails, powder-coated in high-visibility yellow. Designed for bolting to the floor to protect machinery, racking, work areas, and pedestrian zones from forklift or vehicle impact. Each guard features welded flanges for secure mounting and durable construction for long-term industrial use.
379	(18) VESTIL Machinery Guards	VARIOUS Sizes - All APPROX 3.5' tall All APPROX between 3' and 4' wide
380	Lot of (2) Lockers Six Drawers	Two Heavy-duty metal locker unit with 12 individual locking compartments (6 per column). Each door includes a vented front panel for airflow and an integrated label holder. Painted gray finish with reinforced frame for durability. Ideal for employee storage, gyms, schools, or industrial workplaces. Dimensions APPROX: 15"x17"x71" each

381	(5) Filing cabinets	Set of five heavy-duty metal pedestal filing cabinets with a mix of two- and three-drawer configurations. Compact design makes them ideal for under-desk storage of files, supplies, and office essentials. Each unit features smooth drawer pulls and a durable finish. Perfect for offices, workshops, or industrial spaces needing organized storage.
382	(4) Luxor Rolling AV/Utility Carts with Cabinets	Luxor steel rolling carts, each with three shelves and a locking lower cabinet for secure storage. Designed with heavy-duty casters for mobility. Ideal for use as AV carts, mobile workstations, or tool storage in workshops, classrooms, or offices.
383	(3) Dayton 30" Commercial Air Circulators (Pedestal Base)	Set of three Dayton heavy-duty 30" industrial pedestal fans, models 1RWB5B and 1RWB4B. Each fan features a powerful 1/2 HP motor, three-speed settings (low/med/high), and large pedestal bases for stability. Designed for cooling warehouses, shops, and industrial spaces with high airflow output.
384	(11) Machinery Guards	Set of industrial machine guards, painted safety yellow for visibility. Each guard is built from square-tube with reinforced construction and capped ends. Designed to provide protective barriers around machinery, work areas, or equipment. Stackable and easy to move, making them practical for warehouses, shops, or factory floor layouts.
385	55 Gallon Justrite Flammable Storage Cabinet	Heavy-duty Justrite yellow flammable liquid storage cabinet designed for safe storage of acetone, solvents, and other hazardous materials. Features welded steel construction, vent ports, and dual-locking doors with recessed handle. Includes an adjustable galvanized shelf and spill-catching bottom sump. Meets OSHA and NFPA compliance for workplace safety. Dimensions APPROX: 34.5"x34.5"x65"
386	(2) Secureall Flammable Storage Cabinets	Two yellow steel safety cabinets designed for storing flammable liquids and hazardous materials. Each unit features double-wall construction, vent ports, safety labels, and locking handles. Includes interior shelving for organized storage. Widely used in industrial, automotive, and workshop settings to ensure OSHA/NFPA compliance. Dimension AAPROX: 17.5"x17.5"x22.5" each
387	Sandusky Storage Cabinet with Adjustable Shelf	Durable Sandusky metal storage cabinet featuring a heavy-gauge steel body and double-locking doors. Includes an adjustable interior shelf for flexible storage of tools, filters, parts, or supplies. Compact design makes it ideal for workshops, warehouses, or industrial spaces. Locking handle provides added security. Dimensions APPROX: 36"x30"x18"
388	(6) Metal Rolling Carts	Set of six metal-framed red transport carts, designed for moving oversized materials. Each cart is equipped with heavy-duty swivel casters for easy mobility and reinforced frames for stability. Carts can be stacked for compact storage when not in use. Ideal for warehouses, construction sites, and industrial operations. APPROX dimensions 47" x 71"
389	(4) Heavy-Duty Industrial Window Moving Cart	Range in dimension APPROX: 49" x 100" to 47" x 82" Metal-framed rolling cart designed for transporting bulky materials. Equipped with heavy-duty swivel casters for smooth maneuverability, reinforced red frame for stability, and one features a front tow-hitch for easy pulling. Suitable for warehouses, workshops, and industrial environments.
390	(3) Heavy-Duty Industrial Moving Cart	Range in dimensions - APPROX: 47" x 70" to 33" x 94" Metal-framed rolling cart designed for transporting bulky materials. Equipped with heavy-duty swivel casters for smooth maneuverability, reinforced red frame for stability, and one features a front tow-hitch for easy pulling. Suitable for warehouses, workshops, and industrial environments.
391	(3) lockers 6 Drawer - Industrial Steel Lockers with Heavy-Duty Window Transport Cart	Lot of (3) heavy-duty blue steel lockers, currently secured on a red rolling cart for transport. These are traditional multi-compartment lockers with vented doors and integrated handles/lock hasps. Units appear to be arranged in sets, stacked for bulk storage or redistribution. Designed for use in industrial facilities, schools, gyms, or warehouses where personal storage is needed. Red steel rolling cart designed for safely moving large windows, panels, or flat materials. Built with reinforced frame, support bars, and heavy-duty casters for stability and maneuverability. Suitable for glass shops, warehouses, or construction sites.

392	Paint Masking Station with Paper	Two types of (3) red-frame dispensers for holding and dispensing rolls of masking paper. These are commonly used in auto body shops, paint facilities, and warehouses for surface protection, packaging, or masking during spraying. The dispensers feature multiple roll bars to load different widths of paper simultaneously and have serrated cutting edges for quick tear-off. Some are portable with wheels and side handles for mobility, while others are freestanding rack-style units that can hold larger rolls.
393	Pallet Racking With Assorted Contents	(2) Uprights 12' (10) Beams: APPROX 8' 4" (5) Assorted Wire and Wood Decking With contents, assorted cleaning and electrical boxes. Sold as is, bulk lot.
394	Pallet Rack with contents	(2) Uprights 16' (11) Beams: APPROX 10' and (5) Wire decking Assorted product including motors, plywood, belt grinder, activated carbon bags, electrical wires, pvc connectors, extension cords
395	Walton Motors & Controls Heavy Duty Industrial Electric Motor	Large-frame industrial electric motor manufactured by Walton Motors & Controls Inc. (South El Monte, CA). Heavy-duty cast housing with lifting eye and cooling fins. Flange-mounted with robust output shaft, suitable for high-demand applications such as compressors, pumps, or heavy machinery. • Manufacturer: Walton Motors & Controls Inc. • Serial/Job plate present (Job #35217, Date 12/13/21). • Construction: Heavy-duty industrial cast body, vented fan housing. • Mounting: Foot-mounted with flange front.
396	Lot of Touchless Towel Dispensers / racking / assorted cleaning products	Group of Georgia-Pacific enMotion Pro automated touchless paper towel dispensers, model 59462A, black finish, 10" roll towel capacity. Designed for commercial restroom use, hands-free dispensing. Lot includes: • Several loose/disassembled enMotion 10" dispensers (condition: dusty, warehouse stored). • At least one new-in-box unit (GP Pro EnMotion 59462A, factory packaging visible). • Mix of other GP Pro restroom hardware, housings, and spare parts.
397	Lot of Industrial Motors & Pump Assemblies (AMT, Baldor, Dayton, Teel) With shelving	Mixed shelf lot of commercial motors and pump housings, ideal for industrial or workshop applications. Includes: • AMT Commercial Duty Pump Motor (P/N 1626-011-00, 1.5 HP, 230V, single-phase, 3450 RPM, frame 56J). • Baldor Reliance Super-E Motor (Cat. 755N787G1, 3-Phase, 380/230/460V, TEFC, 2865/3450 RPM, frame 145TCZ). • Dayton Jet Pump Motor (Part 6K582BG, 1.5 HP, 115/208-230V, single-phase, 3450 RPM, thermally protected). • Teel Pump Assembly with extended pipe attachment. • Multiple AMT blue centrifugal pump housings. • Additional Dayton motor (in box), assorted electric motors, impellers, and spare housings (various sizes).
398	Lot of Industrial Electric Motors – Baldor, Leeson, Dayton & Others (Mixed HP / RPM / Voltage)	Assorted industrial electric motors stored on heavy-duty shelving. Includes a mix of brands such as Baldor, Leeson, Dayton, and U.S. Motors, with varying sizes and horsepower ratings. Suitable for repurposing, rebuilding, or parts. From the visible nameplates: • Baldor M3541 – 3/4 HP, 3450 RPM, 230/460V, Frame 56 • Leeson 100000.00 – 3/4 HP, 1725 RPM, 115/208-230V, Thermally Protected • Leeson Permanent Magnet Motor – 90V DC, 5A, 1750 RPM, 18.0 in-lbs torque • Additional Dayton and U.S. Motors units, mixed frames and specs. Sold as-is, bulk lot.
399	3 Tier Steel Rack	Storage Rack Length 13' Height 6' Width 4'
400	Metal Shelf	Approx. Height 6' Length 6' Width 18"
401	Steel Frame Work Bench	Approx. 3' W x 5' L x 40" H
402	Slanted Table for Window Screen Application	Approx 48"W x 96"L Max Height 46"
403	Red Metal Rack Table with Multi-Tier Arms and Storage Shelf	Heavy-duty metal rack table featuring a flat work surface, lower storage shelf, and multi-tier arms on both sides for holding long stock materials. The rack design allows for efficient storage and easy access to pipes, bars, or flat stock. Finished in red with welded joints for strength. Includes integrated side arms and a wide tabletop for workspace or staging. APPROX dimensions: 10'x6'6"x3'3"
404	Metal Storage Cabinet with Shelves and Locking Doors with contents	Tall metal storage cabinet with double doors and multiple adjustable shelves. Neutral gray finish with a sturdy frame and flat top. Includes interior shelving designed for parts, tools, or general storage. Equipped with a locking handle and mounted on a reinforced base for stability. Contents included

405	Rolling Parts Cart	Lot of (3) Rolling Parts Cart used for manufactured windows Approx table size 48"W x 96"L Max Height 92"
406	Lot of (3) Rolling Parts Carts	Rolling parts cards used for manufactured windows Approx Table size 48" W x 96"L Max Height 92"
407	Lot of (4) Rolling Round Stock Parts Holders	Rolling casters round stock parts holder
408	Rolling Sqaure Parts Holder	Lot of (7) Rolling Square Parts Holders
409	Rolling Cart Glass Storage and Metal Shelf	Glass shelf includes 24 inch arms, 57 inch width between arms. double-sided max height is approximately 68 inches. (1) five tier metal shelf 23 inches width by 59 inches length max height is 71 inches
410	Pistorius CL-424 MN Dual-Head Cutoff Saw with Baldor Motors	Industrial Pistorius CL-424 MN dual-head cutoff saw designed for precision trimming of wood, aluminum, or vinyl profiles. Equipped with two opposing Baldor Reliance 1.5 HP motors (3-phase, 208–230/460V) for accurate cross-cutting. Features include heavy-duty steel frame, large worktable with front safety shield, dust collection ports, and integrated pneumatic system with air gun. Formerly used in Milgard Manufacturing facility for window and door component processing. Built for continuous, high-volume shop use.
411	12" Dewalt Dbl Bevel Compound Miter w/ table	Dewalt Miter Saw w/ attached table for long material Attached table approximately 10 feet length by 2 feet with by 39 inches height Table has rail with measuring lines up to 129"
412	TigerStop Automated Programmable Stop & Pusher System with Control Console	Industrial TigerStop automated stop and positioning system designed for use with cutoff saws, drills, and other shop equipment. Features an electronic programmable control console with digital keypad and display, integrated measuring rail, and automatic pusher/stop carriage. Provides fast, repeatable positioning for accurate cuts, increasing throughput and reducing waste. Includes roller support table and extended rail for handling long profiles such as wood, aluminum, or vinyl extrusions.
413	Dissembled Pallet Rack	Pallet Rack with (6) Uprights approximately 12 feet high (24) Beams approximately 92 inches wide
414	Urban AKS 4010/A Twin-Head Aluminum Welding Machine – 6 kW	Urban Machinery AKS 4010/A twin-head aluminum welding machine designed for precision corner welding of aluminum profiles. Equipped with two welding heads mounted on a long base frame, this unit allows for simultaneous or sequential welding operations, improving throughput in production lines. Features include a 6 kW power system, pneumatic clamping, and operator control panels with emergency stop and adjustable cycle settings. Built for high-volume fabrication of aluminum windows, doors, and extrusion frames. 2 point Horizontal Welder Approximately 135 inches in length 39 inches in width max height 64 inches
415	Sampson Double Miter Saw – Dual Opposed Heads, Belt-Drive	Industrial double miter saw with two opposing cutting heads on a heavy metal frame. Belt-driven blade housings with guarded covers and central work area for accurate angle cuts. Designed for production cutting of profiles such as aluminum, PVC, or similar materials. Includes operator control box and fixed stand.
418	10' Safety Steps	Safety Steps with handles and bucket at top
419	Lot of (6) Metal rolling carts used for Glass Transport with Angled Rod Holders and Platform Base	Heavy-duty glass transport carts built with a metal frame, flat platform base, and angled rod-style holders on both sides. Designed for safely storing, moving, and organizing glass sheets or panels. Equipped with heavy-duty casters for easy mobility and dual-sided storage capacity, making it ideal for handling large or fragile materials. APPROX Dimensions: 3'8"x7'
420	Lot of (2) Metal rolling carts used for Glass Transport with Angled Rod Holders and Platform Base	Heavy-duty glass transport carts built with a metal frame, flat platform base, and angled rod-style holders on both sides. Designed for safely storing, moving, and organizing glass sheets or panels. Equipped with heavy-duty casters for easy mobility and dual-sided storage capacity, making it ideal for handling large or fragile materials. APPROX Dimensions: 3'8"x7'
421	Lot of (2) Metal rolling carts used for Glass Transport with Angled Rod Holders and Platform Base	Heavy-duty glass transport carts built with a metal frame, flat platform base, and angled rod-style holders on both sides. Designed for safely storing, moving, and organizing glass sheets or panels. Equipped with heavy-duty casters for easy mobility and dual-sided storage capacity, making it ideal for handling large or fragile materials. APPROX Dimensions: 3'8"x7'

422	Lot of (2) Metal rolling carts used for Glass Transport with Angled Rod Holders and Platform Base	Heavy-duty glass transport carts built with a metal frame, flat platform base, and angled rod-style holders on both sides. Designed for safely storing, moving, and organizing glass sheets or panels. Equipped with heavy-duty casters for easy mobility and dual-sided storage capacity, making it ideal for handling large or fragile materials. APPROX Dimensions: 3'8"x7' And 2'6"x7'
423	Lot of (2) Metal rolling carts used for Glass Transport with Angled Rod Holders and Platform Base	Heavy-duty glass transport carts built with a metal frame, flat platform base, and angled rod-style holders on both sides. Designed for safely storing, moving, and organizing glass sheets or panels. Equipped with heavy-duty casters for easy mobility and dual-sided storage capacity, making it ideal for handling large or fragile materials. APPROX Dimensions: 3'8"x7'
424	Lot of (3) Metal rolling carts used for Glass Transport with Angled Rod Holders and Platform Base	Heavy-duty glass transport carts built with a metal frame, flat platform base, and angled rod-style holders on both sides. Designed for safely storing, moving, and organizing glass sheets or panels. Equipped with heavy-duty casters for easy mobility and dual-sided storage capacity, making it ideal for handling large or fragile materials. APPROX Dimensions: 3'8"x7'
425	Lot of (2) Metal rolling carts used for Glass Transport with Angled Rod Holders and Platform Base	Heavy-duty glass transport carts built with a metal frame, flat platform base, and angled rod-style holders on both sides. Designed for safely storing, moving, and organizing glass sheets or panels. Equipped with heavy-duty casters for easy mobility and dual-sided storage capacity, making it ideal for handling large or fragile materials. APPROX Dimensions: 3'8"x7'
426	Lot of (2) Metal rolling carts used for Glass Transport with Angled Rod Holders and Platform Base	Heavy-duty glass transport carts built with a metal frame, flat platform base, and angled rod-style holders on both sides. Designed for safely storing, moving, and organizing glass sheets or panels. Equipped with heavy-duty casters for easy mobility and dual-sided storage capacity, making it ideal for handling large or fragile materials. APPROX Dimensions: 3'8"x7'
427	Lot of (3) Metal rolling carts used for Glass Transport with Angled Rod Holders and Platform Base	Heavy-duty glass transport carts built with a metal frame, flat platform base, and angled rod-style holders on both sides. Designed for safely storing, moving, and organizing glass sheets or panels. Equipped with heavy-duty casters for easy mobility and dual-sided storage capacity, making it ideal for handling large or fragile materials. APPROX Dimensions: 3'8"x7' And 2'6"x7'
428	Fastenal Steel Bin Rack – SAE 240 Hole Bin 2 (Industrial Storage Organizer)	Large metal bin rack with multiple compartments for organized storage. Built with a durable metal frame and finished in blue, this rack provides a high-capacity solution for sorting and managing parts or supplies. Includes labeled cubbies arranged in a grid layout. APPROX 67"x71"
429	Nexgrill Grill	6 Burner Grill W/ a Sear burner Windshield LPG connection Propane Connection 4 wheels for easy mobility Overall Dimnesion Approx 60"L x 25"W x 38"H
430	Rolling Parts Cart w/ a pallet racking beams	Approx 49 beams Beam length approx 99"
431	Miller Engineering Heated Glass Washer	Miller engineering and manufacturing Co. heated glass washing system with New York blower, Feed conveyor size 92 inches length by 35 inches in width. exit conveyor size is 92 inches in length by 68 inches width
442	Lot of (2) Glass Roller Conveyor Tables	Two heavy-duty roller conveyor tables designed for glass handling and transport. Each table is constructed with a durable metal frame and features multiple swivel rollers for smooth material movement. Ideal for moving, staging, and processing large glass sheets in a shop or production environment. Both tables are included as a lot. APPROX dimensions: 8'2"x4'x3'
443	Lot of (3) Roller Caster Table	Lot of (3) GED integrated solutions Roller and Caster Table Approximately length of 4 feet width of 31 inches
444	Glass Flipper Roller Table with Swivel Casters	Heavy-duty glass handling table equipped with multiple swivel casters and flipper-style supports, designed for easy movement, rotation, and positioning of glass sheets during fabrication or assembly. Built with a sturdy metal frame and integrated electrical connection. Compact design makes it suitable for shop floor use where glass needs to be maneuvered efficiently. APPROX Dimensions: 30"x4'x3'
445	(2) Roller and Caster Tables	Large Glass and Material Roller Caster Table Approximately: 48" W x 96" L x 36"H and 72" W x 96" L x 36" H
446A	Flex-Kleen Dust Collector	

447	KEAN FABRICATION Pallet Stretch Wrapping Machine	Palletized and Ready to ship Pallet dimensions are 103"L x 53" w Table size 48"
448	IAS Glass Fabrication Auto Track Line Automation System	IAS integrated automation systems auto track line Glass Fabrication Automation System
449	GED Intergrated Solutions Intercept Machine Rollforming and And Extrusion Line	GED Intergrated Solutions extrusion line for the manufacturing and application of window, spacer sealant and side wall roll forming . including three adhesive dispensers for un coilers, a feeder straightener, a roll, former controls and power supply.
450	Domino Ax350i Industrial printer	The Domino Ax350i is a continuous inkjet (CIJ) printer designed for high-speed industrial coding and marking. It is a versatile and durable machine used across various industries, including food and beverage, electronics, and pharmaceuticals, for printing variable data such as dates, barcodes, and logos.
451	Vacuum Tilt Glass Deglzsing Table.	Custom built by Milgard for operator, tiltable deglazing of glass panels with vacuum suction for stabilizing glass to table 62.5" W x 120"L x 36"
452	Milgard Custon Thread Tapping Station	Custom built, thread, tapping station with adjustable arm, air, powered clamps, and drill foot operated clamps Clamp Size 117" L x 2 3/8" W
453	KUFO Dust Collector	Kufo UFO-101M Dust collection system
454	DeWALT Compound Miter Saw	Model DW713 10" 120v
455	DeWalt Double Bevel Sliding Compound Miter Saw	model DWS780 12" 120V
456	DeWalt Compound Miter Saw	Model DWS3713 10" 120V
457	DeWalt Chop Saw Cutting Station with Safety Enclosure, Dust Collection & Pneumatic Air System	Heavy-duty DeWalt chop saw mounted in a custom steel workstation with full plexiglass safety enclosure. Unit includes integrated dust/chip extraction port, pneumatic air system with blow-off gun, and control box for electrical connections. Designed for high-volume cutting of metal or composite stock while maintaining operator safety and a cleaner work area. Compact footprint with bolted steel frame for secure installation
458	Wegoma Single Point Sash Corner Cleaner	Wegoma type WG 3 Corner Cleaner.
459	Kent Automation Tilting Latch Edge Router	Approximately 67" between centers
460	joseph machine company Fabrication Center	Joseph machine company fabrication center With dust clutch consistent, with feeder, and conveyor 25' Feeder
461	Lot of (2) Justrite flammable storage cabinets	(1) Justrite NO.25750 55 Gallon (1) Eagle Model 1904 4 Galon
462	Ace Glass Edging/Grinding Table with Dayton Motor and Integrated Conveyor Rollers	Industrial glass edging workstation by Ace, equipped with a Dayton 3/4 HP general purpose motor (Model 6K123BG) and enclosed grinding head with dust collection port. Table features multiple swivel roller supports for smooth glass handling and integrated conveyor rollers for efficient workflow. Unit includes control box with power and safety switches, designed for continuous duty in fabrication or processing environments. APPROX Dimensions: 97"x64" x52"
463	Edge Delete Grinder Table with Roller and Caster Table	Designed for glass finishing edge delete grinder system with ace weld sense, dust collector 144" L x 48" W
464	(8) lockers 6 Drawer - Industrial Steel Lockers with Heavy-Duty Window Transport Cart	Lot of (8) heavy-duty blue steel lockers, currently secured on a red rolling cart for transport. These are traditional multi-compartment lockers with vented doors and integrated handles/lock hasps. Units appear to be arranged in sets, stacked for bulk storage or redistribution. Designed for use in industrial facilities, schools, gyms, or warehouses where personal storage is needed. Red steel rolling cart designed for safely moving large windows, panels, or flat materials. Built with reinforced frame, support bars, and heavy-duty casters for stability and maneuverability. Suitable for glass shops, warehouses, or construction sites.

465	(10) lockers 6 Drawer - Industrial Steel Lockers with Heavy-Duty Window Transport Cart	Lot of (10) heavy-duty blue steel lockers, currently secured on a red rolling cart for transport. These are traditional multi-compartment lockers with vented doors and integrated handles/lock hasps. Units appear to be arranged in sets, stacked for bulk storage or redistribution. Designed for use in industrial facilities, schools, gyms, or warehouses where personal storage is needed. APPROX dimensions each: 10"x14"x16" compartment Overall 71"x15"x17" Red steel rolling cart designed for safely moving large windows, panels, or flat materials. Built with reinforced frame, support bars, and heavy-duty casters for stability and maneuverability. Suitable for glass shops, warehouses, or construction sites.
466	(4) lockers 6 Drawer - Industrial Steel Lockers with Heavy-Duty Window Transport Cart	Lot of (4) heavy-duty blue steel lockers, currently secured on a red rolling cart for transport. These are traditional multi-compartment lockers with vented doors and integrated handles/lock hasps. Units appear to be arranged in sets, stacked for bulk storage or redistribution. Designed for use in industrial facilities, schools, gyms, or warehouses where personal storage is needed. Red steel rolling cart designed for safely moving large windows, panels, or flat materials. Built with reinforced frame, support bars, and heavy-duty casters for stability and maneuverability. Suitable for glass shops, warehouses, or construction sites. APPROX dimensions each: 10"x14"x16" compartment Overall 71"x15"x17"
467	Crystal Floor Scrubber Ride On.	Model CR21 Brush Plate Width 21" Squeegee Width 29" Clean Water Tank 17.2 Gallon
468	Cantilever storage racking	5 Bay 24 Arm 248" L x 48" D x 192" H
469	Pallet racking two bay	(2) Uprights 12' (4) Beams 8' (4) Wire Racks
470	Heavy Duty Pallet Racking	8 Bay Heavy Duty Pallet Racking Load Per level 6000lbs (16) Beams 204" (8) Uprights 192"
471	Keyene IM Series Dimension measuring systems IM 8030	Keyene IM Series Dimension measuring systems IM 8030
472	Lot of (10) Heavy-Duty Trash Cans with (5) sets of Dolly Wheels	A lot of large-capacity trash cans suitable for industrial or shop use. Units are equipped with detachable dolly bases featuring swivel casters for easy mobility. The cans are made of durable plastic and come in mixed colors. All are functional and designed for heavy-duty handling in warehouse, factory, or construction environments.
473	Lot of (10) Heavy-Duty Trash Cans with (3) sets of Dolly Wheels	A lot of large-capacity trash cans suitable for industrial or shop use. Units are equipped with detachable dolly bases featuring swivel casters for easy mobility. The cans are made of durable plastic and come in mixed colors. All are functional and designed for heavy-duty handling in warehouse, factory, or construction environments.
474	Lot of (10) Heavy-Duty Trash Cans with (4) sets of Dolly Wheels	A lot of large-capacity trash cans suitable for industrial or shop use. Units are equipped with detachable dolly bases featuring swivel casters for easy mobility. The cans are made of durable plastic and come in mixed colors. All are functional and designed for heavy-duty handling in warehouse, factory, or construction environments.
475	Lot of (10) Heavy-Duty Trash Cans with (2) sets of Dolly Wheels	A lot of large-capacity trash cans suitable for industrial or shop use. Units are equipped with detachable dolly bases featuring swivel casters for easy mobility. The cans are made of durable plastic and come in mixed colors. All are functional and designed for heavy-duty handling in warehouse, factory, or construction environments.
476	Lot of (10) Heavy-Duty Trash Cans with (3) sets of Dolly Wheels	A lot of large-capacity trash cans suitable for industrial or shop use. Units are equipped with detachable dolly bases featuring swivel casters for easy mobility. The cans are made of durable plastic and come in mixed colors. All are functional and designed for heavy-duty handling in warehouse, factory, or construction environments.
477	Lot of (10) Heavy-Duty Trash Cans with (2) sets of Dolly Wheels	A lot of large-capacity trash cans suitable for industrial or shop use. Units are equipped with detachable dolly bases featuring swivel casters for easy mobility. The cans are made of durable plastic and come in mixed colors. All are functional and designed for heavy-duty handling in warehouse, factory, or construction environments.
478	Lot of (10) Heavy-Duty Trash Cans with (3) sets of Dolly Wheels	A lot of large-capacity trash cans suitable for industrial or shop use. Units are equipped with detachable dolly bases featuring swivel casters for easy mobility. The cans are made of durable plastic and come in mixed colors. All are functional and designed for heavy-duty handling in warehouse, factory, or construction environments.

479	Lot of (13) Heavy-Duty Trash Cans with (4) sets of Dolly Wheels	A lot of large-capacity trash cans suitable for industrial or shop use. Units are equipped with detachable dolly bases featuring swivel casters for easy mobility. The cans are made of durable plastic and come in mixed colors. All are functional and designed for heavy-duty handling in warehouse, factory, or construction environments.
480	Lot of (11) Heavy-Duty Trash Cans with (5) sets of Dolly Wheels	A lot of large-capacity trash cans suitable for industrial or shop use. Units are equipped with detachable dolly bases featuring swivel casters for easy mobility. The cans are made of durable plastic and come in mixed colors. All are functional and designed for heavy-duty handling in warehouse, factory, or construction environments.
481	Lot of (2) Industrial metal Frame Carts with Storage Compartments on Casters	Heavy-duty industrial cart designed with a welded red steel frame and multiple white storage compartments. Built on smooth-rolling casters for easy mobility in warehouses, factories, or workshops. The segmented square compartments are ideal for organizing and transporting parts, tools, or production materials. Solid side and back panels provide stability and durability during use.
482	Lot of (2) Industrial Metal Frame Carts with Storage Compartments on Casters	Heavy-duty industrial cart designed with a welded red steel frame and multiple white storage compartments. Built on smooth-rolling casters for easy mobility in warehouses, factories, or workshops. The segmented square compartments are ideal for organizing and transporting parts, tools, or production materials. Solid side and back panels provide stability and durability during use.
483	Lot of (2) Industrial Metal Frame Carts with Storage Compartments on Casters	Heavy-duty industrial cart designed with a welded red steel frame and multiple white storage compartments. Built on smooth-rolling casters for easy mobility in warehouses, factories, or workshops. The segmented square compartments are ideal for organizing and transporting parts, tools, or production materials. Solid side and back panels provide stability and durability during use.
484	Lot of (2) Industrial Metal Frame Carts with Storage Compartments on Casters	Heavy-duty industrial cart designed with a welded red metal frame and multiple white storage compartments. Built on smooth-rolling casters for easy mobility in warehouses, factories, or workshops. The segmented square compartments are ideal for organizing and transporting parts, tools, or production materials. Solid side and back panels provide stability and durability during use.
485	Lot of (2) Industrial Metal Frame Carts with Storage Compartments on Casters	Heavy-duty industrial cart designed with a welded red metal frame and multiple white storage compartments. Built on smooth-rolling casters for easy mobility in warehouses, factories, or workshops. The segmented square compartments are ideal for organizing and transporting parts, tools, or production materials. Solid side and back panels provide stability and durability during use.
486	Lot of (2) Heavy-Duty Glass Transport Carts on Casters	Set of industrial transport carts designed for moving and staging large glass panels or flat materials. Each cart features a reinforced steel frame, wood cross supports, and a wide flat deck surface. The carts are equipped with heavy-duty swivel casters for mobility and include foot-operated locking brakes and leveling jacks for stability when stationary. Built for warehouse or shop use, these carts are suited for safely handling oversized and heavy sheet goods. APPROX Dimensions 9' x 6' x 6' And 8.5' x 4.5' , 5.5'
487	Glass Transport Cart with Accessories – Heavy-Duty Industrial	Heavy-duty transport cart built with a reinforced frame and side rails, mounted on industrial casters for mobility. Includes leveling jacks for stability when stationary. The lot also comes with a storage box, an industrial fan, and additional framing pieces. Designed for warehouse or fabrication use, this cart is suitable for handling oversized sheet goods and glass panels.
488	Lot of (2) Industrial Metal Frame Carts with Storage Compartments on Casters	Set of two heavy-duty bin carts designed for organizing and transporting parts or small materials. Each cart is built with a reinforced frame, mesh sides for visibility, and a top section with multiple dividers for sorting and storage. Mounted on swivel casters, the carts roll easily for warehouse or shop use.
489	Glass Transport Cart – Heavy-Duty Industrial	Industrial transport cart built with a reinforced steel frame and wood slat side rails, mounted on heavy-duty casters for mobility. The cart includes leveling jacks for stability when stationary. Designed for warehouse or fabrication environments, this cart is suited for handling and staging large glass panels or oversized sheet materials.

490	Lot of (2) Glass Transport Carts with Casters and Lighting	Two heavy-duty glass transport carts built with reinforced frames and side rails, designed for moving and staging large panels or sheet goods. Both carts are mounted on industrial casters for mobility. One unit is fitted with leveling jacks and an upright pole supporting mounted lighting, making it suitable for illuminated workspace use. The other cart features a wide loading base and braced construction for heavy handling. APPROX dimensions: 7.5' x 2.5' x 5.5' And 6.5' x 3.5' x 6.5'
491	Lot of (3) Wire Shelving Racks on Casters	Lot of three wire shelving racks designed for storage and organization in warehouse or shop environments. Each unit features multiple adjustable wire shelves and is mounted on casters for mobility. One unit includes a top overhead shelf for extra capacity, while another has a wood surface insert for added utility. These racks provide versatile storage for tools, parts, or general inventory.
492	Slanted Panel Cart with Casters – Heavy-Duty Industrial	Heavy-duty slanted panel cart designed for transporting and staging large sheets or flat materials. The cart features angled support bars across the frame, allowing sheet goods to be stored upright and accessible. Built with a reinforced base and mounted on industrial casters for mobility in warehouse or shop environments. APPROX dimensions: 8'3" x 4' x 5'9"
493	Slanted Panel Cart with Top Frame – Heavy-Duty Industrial	Heavy-duty slanted panel cart designed for storing and transporting sheet goods or large panels. Built with a reinforced frame and angled support bars that keep materials upright and accessible. The cart includes a top frame with cross rails for added structure and stability. Mounted on industrial casters for mobility in warehouse or shop settings. APPROX dimensions: 5'9" x 4' x 5'9"
494	Two-Tier Utility Cart with Casters – Heavy-Duty Industrial	Heavy-duty utility cart featuring a reinforced frame with two flat deck surfaces for transporting tools, parts, or materials. The cart has a sturdy rectangular structure and is mounted on swivel casters for easy maneuverability in warehouse or shop environments. The open-frame design allows for quick loading and unloading. APPROX DIMENSIONS: 52" x 28" x 40"
495	Lot of (2) Pallets of Stretch Film Rolls – Industrial Packaging	Bulk lot of industrial stretch film rolls suitable for packaging and securing palletized goods. Rolls are wound on core spools and stacked on pallets for easy handling. The material is designed for durability in warehouse and shipping applications.
496	Lot of (2) Heavy Duty Industrial Glass Transport Carts on Casters – Blue and Red Frames	Pair of heavy duty industrial transport carts built for handling large glass panels or sheet materials. Each cart features a reinforced welded frame with wood cross supports, stabilizer legs for secure loading, and swivel caster wheels for mobility. Suitable for industrial, warehouse, or shop use. APPROX Dimensions: 8' x 4'9" x 7'
497	Heavy Duty Industrial Air Hoses with Blow Gun and Accessories – Rolling Bin Lot	This lot features a variety of heavy duty industrial air hoses, including coiled polyurethane and straight rubber lines with quick-connect fittings. Also included is a pneumatic blow gun with extended nozzle and additional air tool accessories. A regulator assembly is present among the hoses. All items are stored in a large rolling yellow bin for convenient handling and transport. Ideal for shop, factory, or warehouse compressed air setups.
498	Assorted plastic/metal carts	Assorted plastic/metal carts
499	Lot of (2) carts	Lot of (2) carts
500	Hoses in industrial trash can	Hoses in industrial trash can
501	Hoses in industrial trash can	Hoses in industrial trash can
502	Various cones in industrial trash can	Various cones in industrial trash can
503	Various computer monitors	Various computer monitors
504	Lot of (5) various computer monitors	Lot of (5) various computer monitors
505	Lot of (4) various computer monitors	Lot of (4) various computer monitors
506	Lot of (4) various computer monitors on assorted stands	Lot of (4) various computer monitors on assorted stands
507	Lot of (4) various moniters on assorted stands	Lot of (4) various moniters on assorted stands
508	Industrial window transport with unfinished windows	Industrial window transport with unfinished windows
509	Lot of 2 industrial carts	APPROX dimensions: 94" x 39" x 81" And 87" x 32" x 56"
510	Bin of oil canisters	Bin of oil canisters

511	Lot of (7) large industrial transport carts	ALL APPROXIMATE DIMENSIONS: Between 14' - 16' long Between 20" - 30"Wide Between 33" - 74" Tall
512	Lot of (3) industrial work tables	APPROX Dimensions: 97" x 76" x 43" And 59" x 72" x 44"
513	Lot of (10) industrial work tables	APPROX Dimensions: 97" x 76" x 44"
514	Lot of (3) rolling cart industrial with wheels	76" 51" 56" And 23" x 26" x 67" And 30" x 47" x 67"
515	4 industrial Rolling cart	4 industrial Rolling cart
516	Lot of 9 industrial trash cans	Lot of 9 industrial trash cans
517	Rolling cart	Rolling cart
518	Rolling cart with broom bins	Rolling cart with broom bins
519	2 Rolling storage	2 Rolling storage
520	2 industrial rolling carts	2 industrial rolling carts
521	Pile of scrap metal	Pile of scrap metal
522	Rolling Workstation Desk w/ Locker Drawers and Platform	Rolling Workstation Desk w/ Locker Drawers and Platform
523	6 assorted industrial carts	6 assorted industrial carts
524	2 items - Rolling cart and rolling signage	2 items - Rolling cart and rolling signage
525	3 industrial storage	3 industrial storage
526	2 Industrial material storage	2 Industrial material storage
527	Industrial shop vac	Industrial shop vac
528	5 assorted industrial carts	5 assorted industrial carts
529	5 assorted industrial trash cans	5 assorted industrial trash cans
530	7 industrial trash filled with valuables	7 industrial trash filled with valuables
531	2 window movers	2 window movers
532	2 industrial storage / transport	APPROX Dimensions: 20' x 4.5' x 7' And 20' x 4.5' x 5.5'
534	6 Heavy duty transportation devices	6 Heavy duty transportation devices
535	Battery charger	Battery charger
536	Roll hose	Roll hose
537	Unframed glass windows	Double pane APPROX dimensions: 89" x 33" windows 4' x 95" x 64" storage structure
538	Lot of (2) Heavy Duty Industrial Work Tables on Casters	Two heavy duty industrial work tables with flat tops and welded frames. Each table is mounted on four swivel casters, two with locking mechanisms. Square frame design provides stable support and mobility. Previously used for painting applications. APPROX Dimensions: 4' x 5' x 2'7"
539	Lot of (2) Heavy Duty Industrial Work Tables on Casters	Two heavy duty industrial work tables with flat tops and welded frames. Each table is mounted on four swivel casters, two with locking mechanisms. Square frame design provides stable support and mobility. Previously used for painting applications. APPROX Dimensions: 4' x 5' x 2'7"
540	Rolling paint cart	APPROX Dimensions: 4' x 5' x 2'7"
541	Lot of (2) Heavy Duty Industrial Work Tables on Casters	Two heavy duty industrial work tables with flat tops and welded frames. Each table is mounted on four swivel casters, two with locking mechanisms. Square frame design provides stable support and mobility. Previously used for painting applications. APPROX Dimensions: 4' x 5' x 2'7" And 4' x 5' x 37"
543	Lot of (2) Heavy Duty Industrial Work Tables on Casters	Two heavy duty industrial work tables with flat tops and welded frames. Each table is mounted on four swivel casters, two with locking mechanisms. Square frame design provides stable support and mobility. Previously used for painting applications. APPROX Dimensions: 4' x 5' x 2'7"
544	Lot of (2) Heavy Duty Industrial Work Tables on Casters	Two heavy duty industrial work tables with flat tops and welded frames. Each table is mounted on four swivel casters, two with locking mechanisms. Square frame design provides stable support and mobility. Previously used for painting applications. APPROX Dimensions: 4' x 5' x 2'7"

545	Lot of (3) Heavy Duty Industrial Work Tables on Casters	Two heavy duty industrial work tables with flat tops and welded frames. Each table is mounted on four swivel casters, two with locking mechanisms. Square frame design provides stable support and mobility. Previously used for painting applications. APPROX Dimensions: 4' x 5' x 2'7"
546	Lot of (2) Heavy Duty Industrial Work Tables on Casters	Two heavy duty industrial work tables with flat tops and welded frames. Each table is mounted on four swivel casters, two with locking mechanisms. Square frame design provides stable support and mobility. Previously used for painting applications. APPROX Dimensions: 4' x 5' x 3'1"
547	Industrial rack	APPROX Dimensions: 59" x 40" x 82"
548	Lot of (2) Heavy Duty Industrial Work Tables on Casters	Two heavy duty industrial work tables with flat tops and welded frames. Each table is mounted on four swivel casters, two with locking mechanisms. Square frame design provides stable support and mobility. Previously used for painting applications. APPROX Dimensions: 4' x 5' x 2'7"
549	Lot of (2) Heavy Duty Industrial Work Tables on Casters	Two heavy duty industrial work tables with flat tops and welded frames. Each table is mounted on four swivel casters, two with locking mechanisms. Square frame design provides stable support and mobility. Previously used for painting applications. APPROX Dimensions: 4' x 5' x 2'7"
550	Lot of (2) Heavy-Duty Industrial Work Tables on Casters – Padded Tops	Set of mobile industrial work tables designed for heavy-duty use in manufacturing or fabrication settings. Each table features a reinforced frame, durable caster wheels for mobility, and a padded top surface covered with protective felt material. The padded surface makes them suitable for handling, staging, or assembling items that require protection from scratches or direct contact. These tables are commonly used in production lines, warehouses, or workshops where mobility and surface protection are essential. APPROX Dimensions: 4' x 5' x 2'7"
551	Lot of (2) Heavy-Duty Industrial Work Tables – Padded Tops	Set of mobile industrial work tables designed for heavy-duty use in manufacturing or fabrication settings. Each table features a reinforced frame and a padded top surface covered with protective felt material. The padded surface makes them suitable for handling, staging, or assembling items that require protection from scratches or direct contact. These tables are commonly used in production lines, warehouses, or workshop. APPROX Dimensions: 4' x 6' x 2'8"
552	Heavy-Duty Industrial Roll Storage Rack on Casters	This industrial-grade rack is designed for storing and transporting long rolls of material in a production or warehouse setting. The unit features a reinforced A-frame construction with multiple horizontal supports for securing rolls. The base includes durable platforms for stability and added load support. Mounted on heavy-duty swivel casters, the rack can be moved across the facility with ease. It also includes a built-in leveling foot/plate system to keep the rack securely in place when stationary.
553	Heavy-Duty Industrial Roll Storage Rack on Casters	This industrial-grade rack is designed for storing and transporting long rolls of material in a production or warehouse setting. The unit features a reinforced A-frame construction with multiple horizontal supports for securing rolls. The base includes durable platforms for stability and added load support. Mounted on heavy-duty swivel casters, the rack can be moved across the facility with ease. It also includes a built-in leveling foot/plate system to keep the rack securely in place when stationary.
554	Heavy-Duty Industrial Cart with Upright Frame and Rollers	Large industrial cart built with reinforced wood-and-metal frame construction. The unit includes a flat deck platform with mounted swivel casters for mobility and an upright panel for securing or separating stored items. Several removable support bars and rollers are included, suitable for handling long or bulky materials. Heavy-duty red swivel casters provide smooth movement and are designed for warehouse and manufacturing use.
555	Heavy-Duty Industrial Cart with Upright Frame - with Industrial Cabinet and Shelving	Heavy-Duty Industrial Cart with Upright Frame - with Industrial Cabinet and Shelving
556	Mobile manufacturing unit	Mobile manufacturing unit

589	Dayton Industrial Wall-Mount Circulation Fan – Approx. 30 in Diameter with Adjustable Bracket	Dayton industrial wall-mounted circulation fan with an approx. 30 in diameter, designed for heavy-duty use in warehouses, shops, and manufacturing facilities. Equipped with a powerful motor and high-velocity blades, this fan delivers strong airflow to improve ventilation and cooling in large spaces. The included wall-mount bracket with swivel adjustment allows secure installation to walls or structural supports, while providing directional control of airflow. A durable protective wire guard ensures long-lasting performance and safety in industrial environments.
590	Dayton Industrial Wall-Mount Circulation Fan – Approx. 30 in Diameter with Adjustable Bracket	Dayton industrial wall-mounted circulation fan with an approx. 30 in diameter, designed for heavy-duty use in warehouses, shops, and manufacturing facilities. Equipped with a powerful motor and high-velocity blades, this fan delivers strong airflow to improve ventilation and cooling in large spaces. The included wall-mount bracket with swivel adjustment allows secure installation to walls or structural supports, while providing directional control of airflow. A durable protective wire guard ensures long-lasting performance and safety in industrial environments.

591	Air King Industrial Wall-Mount Circulation Fan – Approx. 30 in Diameter with Adjustable Bracket	Air King industrial wall-mounted circulation fan with an approx. 30 in diameter, designed for heavy-duty use in warehouses, shops, and manufacturing facilities. Equipped with a powerful motor and high-velocity blades, this fan delivers strong airflow to improve ventilation and cooling in large spaces. The included wall-mount bracket with swivel adjustment allows secure installation to walls or structural supports, while providing directional control of airflow. A durable protective wire guard ensures long-lasting performance and safety in industrial environments.
592	Lot of (2) Industrial Wall-Mount Circulation Fans – Approx. 30 in Diameter with Adjustable Bracket	Industrial wall-mounted circulation fans with an approx. 30 in diameter, designed for heavy-duty use in warehouses, shops, and manufacturing facilities. Equipped with a powerful motor and high-velocity blades, these fans deliver strong airflow to improve ventilation and cooling in large spaces. The included wall-mount brackets with swivel adjustment allows secure installation to walls or structural supports, while providing directional control of airflow. A durable protective wire guard ensures long-lasting performance and safety in industrial environments.
593	Lot of (2) Industrial Wall-Mount Circulation Fans – Approx. 30 in Diameter with Adjustable Bracket	Industrial wall-mounted circulation fans with an approx. 30 in diameter, designed for heavy-duty use in warehouses, shops, and manufacturing facilities. Equipped with a powerful motor and high-velocity blades, these fans deliver strong airflow to improve ventilation and cooling in large spaces. The included wall-mount brackets with swivel adjustment allows secure installation to walls or structural supports, while providing directional control of airflow. A durable protective wire guard ensures long-lasting performance and safety in industrial environments.
594	Lot of (2) Industrial Wall-Mount Circulation Fans – Approx. 30 in Diameter with Adjustable Bracket	Industrial wall-mounted circulation fans with an approx. 30 in diameter, designed for heavy-duty use in warehouses, shops, and manufacturing facilities. Equipped with a powerful motor and high-velocity blades, these fans deliver strong airflow to improve ventilation and cooling in large spaces. The included wall-mount brackets with swivel adjustment allows secure installation to walls or structural supports, while providing directional control of airflow. A durable protective wire guard ensures long-lasting performance and safety in industrial environments.
595	Maxes Industrial Wall-Mount Circulation Fan – Approx. 30 in Diameter with Adjustable Bracket	Maxess industrial wall-mounted circulation fan with an approx. 30 in diameter, designed for heavy-duty use in warehouses, shops, and manufacturing facilities. Equipped with a powerful motor and high-velocity blades, this fan delivers strong airflow to improve ventilation and cooling in large spaces. The included wall-mount bracket with swivel adjustment allows secure installation to walls or structural supports, while providing directional control of airflow. A durable protective wire guard ensures long-lasting performance and safety in industrial environments.
596	Lot of (2) Industrial Wall-Mount Circulation Fans – Approx. 30 in Diameter with Adjustable Bracket	Industrial wall-mounted circulation fans with an approx. 30 in diameter, designed for heavy-duty use in warehouses, shops, and manufacturing facilities. Equipped with a powerful motor and high-velocity blades, these fans deliver strong airflow to improve ventilation and cooling in large spaces. The included wall-mount brackets with swivel adjustment allows secure installation to walls or structural supports, while providing directional control of airflow. A durable protective wire guard ensures long-lasting performance and safety in industrial environments.
597	Maxes Industrial Wall-Mount Circulation Fan – Approx. 30 in Diameter with Adjustable Bracket	Maxess industrial wall-mounted circulation fan with an approx. 30 in diameter, designed for heavy-duty use in warehouses, shops, and manufacturing facilities. Equipped with a powerful motor and high-velocity blades, this fan delivers strong airflow to improve ventilation and cooling in large spaces. The included wall-mount bracket with swivel adjustment allows secure installation to walls or structural supports, while providing directional control of airflow. A durable protective wire guard ensures long-lasting performance and safety in industrial environments.
598	Lot of (2) Industrial Wall-Mount Circulation Fans – Approx. 30 in Diameter with Adjustable Bracket	Industrial wall-mounted circulation fans with an approx. 30 in diameter, designed for heavy-duty use in warehouses, shops, and manufacturing facilities. Equipped with a powerful motor and high-velocity blades, these fans deliver strong airflow to improve ventilation and cooling in large spaces. The included wall-mount brackets with swivel adjustment allows secure installation to walls or structural supports, while providing directional control of airflow. A durable protective wire guard ensures long-lasting performance and safety in industrial environments.

599	Global Industrial Wall-Mount Circulation Fan – Approx. 30 in Diameter with Adjustable Bracket	Global industrial wall-mounted circulation fan with an approx. 30 in diameter, designed for heavy-duty use in warehouses, shops, and manufacturing facilities. Equipped with a powerful motor and high-velocity blades, this fan delivers strong airflow to improve ventilation and cooling in large spaces. The included wall-mount bracket with swivel adjustment allows secure installation to walls or structural supports, while providing directional control of airflow. A durable protective wire guard ensures long-lasting performance and safety in industrial environments.
600	Lot of (2) Industrial Wall-Mount Circulation Fans – Approx. 30 in Diameter with Adjustable Bracket	Industrial wall-mounted circulation fans with an approx. 30 in diameter, designed for heavy-duty use in warehouses, shops, and manufacturing facilities. Equipped with a powerful motor and high-velocity blades, these fans deliver strong airflow to improve ventilation and cooling in large spaces. The included wall-mount brackets with swivel adjustment allows secure installation to walls or structural supports, while providing directional control of airflow. A durable protective wire guard ensures long-lasting performance and safety in industrial environments.
601	Lot of (2) Industrial Wall-Mount Circulation Fans – Approx. 30 in Diameter with Adjustable Bracket	Industrial wall-mounted circulation fans with an approx. 30 in diameter, designed for heavy-duty use in warehouses, shops, and manufacturing facilities. Equipped with a powerful motor and high-velocity blades, these fans deliver strong airflow to improve ventilation and cooling in large spaces. The included wall-mount brackets with swivel adjustment allows secure installation to walls or structural supports, while providing directional control of airflow. A durable protective wire guard ensures long-lasting performance and safety in industrial environments.
602	Lot of (2) Industrial Wall-Mount Circulation Fans – Approx. 30 in Diameter with Adjustable Bracket	Industrial wall-mounted circulation fans with an approx. 30 in diameter, designed for heavy-duty use in warehouses, shops, and manufacturing facilities. Equipped with a powerful motor and high-velocity blades, these fans deliver strong airflow to improve ventilation and cooling in large spaces. The included wall-mount brackets with swivel adjustment allows secure installation to walls or structural supports, while providing directional control of airflow. A durable protective wire guard ensures long-lasting performance and safety in industrial environments.
603	Lot of (2) Industrial Wall-Mount Circulation Fans – Approx. 30 in Diameter with Adjustable Bracket	Industrial wall-mounted circulation fans with an approx. 30 in diameter, designed for heavy-duty use in warehouses, shops, and manufacturing facilities. Equipped with a powerful motor and high-velocity blades, these fans deliver strong airflow to improve ventilation and cooling in large spaces. The included wall-mount brackets with swivel adjustment allows secure installation to walls or structural supports, while providing directional control of airflow. A durable protective wire guard ensures long-lasting performance and safety in industrial environments.
604	Lot of (3) Industrial Wall-Mount Circulation Fans – Approx. 30 in Diameter with Adjustable Bracket	Industrial wall-mounted circulation fans with an approx. 30 in diameter, designed for heavy-duty use in warehouses, shops, and manufacturing facilities. Equipped with a powerful motor and high-velocity blades, these fans deliver strong airflow to improve ventilation and cooling in large spaces. The included wall-mount brackets with swivel adjustment allows secure installation to walls or structural supports, while providing directional control of airflow. A durable protective wire guard ensures long-lasting performance and safety in industrial environments.
605	Lot of (2) Industrial Wall-Mount Circulation Fans – Approx. 30 in Diameter with Adjustable Bracket	Industrial wall-mounted circulation fans with an approx. 30 in diameter, designed for heavy-duty use in warehouses, shops, and manufacturing facilities. Equipped with a powerful motor and high-velocity blades, these fans deliver strong airflow to improve ventilation and cooling in large spaces. The included wall-mount brackets with swivel adjustment allows secure installation to walls or structural supports, while providing directional control of airflow. A durable protective wire guard ensures long-lasting performance and safety in industrial environments.
606	Lot of (2) Industrial Wall-Mount Circulation Fans – Approx. 30 in Diameter with Adjustable Bracket	Industrial wall-mounted circulation fans with an approx. 30 in diameter, designed for heavy-duty use in warehouses, shops, and manufacturing facilities. Equipped with a powerful motor and high-velocity blades, these fans deliver strong airflow to improve ventilation and cooling in large spaces. The included wall-mount brackets with swivel adjustment allows secure installation to walls or structural supports, while providing directional control of airflow. A durable protective wire guard ensures long-lasting performance and safety in industrial environments.

607	Lot of (3) Industrial Wall-Mount Circulation Fans – Approx. 30 in Diameter with Adjustable Bracket	Industrial wall-mounted circulation fans with an approx. 30 in diameter, designed for heavy-duty use in warehouses, shops, and manufacturing facilities. Equipped with a powerful motor and high-velocity blades, these fans deliver strong airflow to improve ventilation and cooling in large spaces. The included wall-mount brackets with swivel adjustment allows secure installation to walls or structural supports, while providing directional control of airflow. A durable protective wire guard ensures long-lasting performance and safety in industrial environments.
608	Lot of (3) Industrial Wall-Mount Circulation Fans – Approx. 30 in Diameter with Adjustable Bracket	Industrial wall-mounted circulation fans with an approx. 30 in diameter, designed for heavy-duty use in warehouses, shops, and manufacturing facilities. Equipped with a powerful motor and high-velocity blades, these fans deliver strong airflow to improve ventilation and cooling in large spaces. The included wall-mount brackets with swivel adjustment allows secure installation to walls or structural supports, while providing directional control of airflow. A durable protective wire guard ensures long-lasting performance and safety in industrial environments.
609	Lot of (2) Industrial Wall-Mount Circulation Fans – Approx. 30 in Diameter with Adjustable Bracket	Industrial wall-mounted circulation fans with an approx. 30 in diameter, designed for heavy-duty use in warehouses, shops, and manufacturing facilities. Equipped with a powerful motor and high-velocity blades, these fans deliver strong airflow to improve ventilation and cooling in large spaces. The included wall-mount brackets with swivel adjustment allows secure installation to walls or structural supports, while providing directional control of airflow. A durable protective wire guard ensures long-lasting performance and safety in industrial environments.
610	Lot of (2) Industrial Wall-Mount Circulation Fans – Approx. 30 in Diameter with Adjustable Bracket	Industrial wall-mounted circulation fans with an approx. 30 in diameter, designed for heavy-duty use in warehouses, shops, and manufacturing facilities. Equipped with a powerful motor and high-velocity blades, these fans deliver strong airflow to improve ventilation and cooling in large spaces. The included wall-mount brackets with swivel adjustment allows secure installation to walls or structural supports, while providing directional control of airflow. A durable protective wire guard ensures long-lasting performance and safety in industrial environments.
611	Industrial Wall-Mount Circulation Fan – Approx. 30 in Diameter with Adjustable Bracket	industrial wall-mounted circulation fan with an approx. 30 in diameter, designed for heavy-duty use in warehouses, shops, and manufacturing facilities. Equipped with a powerful motor and high-velocity blades, this fan delivers strong airflow to improve ventilation and cooling in large spaces. The included wall-mount bracket with swivel adjustment allows secure installation to walls or structural supports, while providing directional control of airflow. A durable protective wire guard ensures long-lasting performance and safety in industrial environments.
612	Lot of (2) Industrial Wall-Mount Circulation Fans – Approx. 30 in Diameter with Adjustable Bracket	Industrial wall-mounted circulation fans with an approx. 30 in diameter, designed for heavy-duty use in warehouses, shops, and manufacturing facilities. Equipped with a powerful motor and high-velocity blades, these fans deliver strong airflow to improve ventilation and cooling in large spaces. The included wall-mount brackets with swivel adjustment allows secure installation to walls or structural supports, while providing directional control of airflow. A durable protective wire guard ensures long-lasting performance and safety in industrial environments.
613	Lot of (2) Industrial Wall-Mount Circulation Fans – Approx. 30 in Diameter with Adjustable Bracket	Industrial wall-mounted circulation fans with an approx. 30 in diameter, designed for heavy-duty use in warehouses, shops, and manufacturing facilities. Equipped with a powerful motor and high-velocity blades, these fans deliver strong airflow to improve ventilation and cooling in large spaces. The included wall-mount brackets with swivel adjustment allows secure installation to walls or structural supports, while providing directional control of airflow. A durable protective wire guard ensures long-lasting performance and safety in industrial environments.
614	Lot of (2) Industrial Wall-Mount Circulation Fans – Approx. 30 in Diameter with Adjustable Bracket	Industrial wall-mounted circulation fans with an approx. 30 in diameter, designed for heavy-duty use in warehouses, shops, and manufacturing facilities. Equipped with a powerful motor and high-velocity blades, these fans deliver strong airflow to improve ventilation and cooling in large spaces. The included wall-mount brackets with swivel adjustment allows secure installation to walls or structural supports, while providing directional control of airflow. A durable protective wire guard ensures long-lasting performance and safety in industrial environments.

615	Lot of (2) Industrial Wall-Mount Circulation Fans – Approx. 30 in Diameter with Adjustable Bracket	Industrial wall-mounted circulation fans with an approx. 30 in diameter, designed for heavy-duty use in warehouses, shops, and manufacturing facilities. Equipped with a powerful motor and high-velocity blades, these fans deliver strong airflow to improve ventilation and cooling in large spaces. The included wall-mount brackets with swivel adjustment allows secure installation to walls or structural supports, while providing directional control of airflow. A durable protective wire guard ensures long-lasting performance and safety in industrial environments.
616	Dayton Industrial Wall-Mount Circulation Fan – Approx. 30 in Diameter with Adjustable Bracket	Dayton industrial wall-mounted circulation fan with an approx. 30 in diameter, designed for heavy-duty use in warehouses, shops, and manufacturing facilities. Equipped with a powerful motor and high-velocity blades, this fan delivers strong airflow to improve ventilation and cooling in large spaces. The included wall-mount bracket with swivel adjustment allows secure installation to walls or structural supports, while providing directional control of airflow. A durable protective wire guard ensures long-lasting performance and safety in industrial environments.
617	Dayton Industrial Wall-Mount Circulation Fan – Approx. 30 in Diameter with Adjustable Bracket	Dayton industrial wall-mounted circulation fan with an approx. 30 in diameter, designed for heavy-duty use in warehouses, shops, and manufacturing facilities. Equipped with a powerful motor and high-velocity blades, this fan delivers strong airflow to improve ventilation and cooling in large spaces. The included wall-mount bracket with swivel adjustment allows secure installation to walls or structural supports, while providing directional control of airflow. A durable protective wire guard ensures long-lasting performance and safety in industrial environments.
618	Dayton Industrial Wall-Mount Circulation Fan – Approx. 30 in Diameter with Adjustable Bracket	Dayton industrial wall-mounted circulation fan with an approx. 30 in diameter, designed for heavy-duty use in warehouses, shops, and manufacturing facilities. Equipped with a powerful motor and high-velocity blades, this fan delivers strong airflow to improve ventilation and cooling in large spaces. The included wall-mount bracket with swivel adjustment allows secure installation to walls or structural supports, while providing directional control of airflow. A durable protective wire guard ensures long-lasting performance and safety in industrial environments.
619	Maxess Industrial Wall-Mount Circulation Fan – Approx. 30 in Diameter with Adjustable Bracket	Maxess industrial wall-mounted circulation fan with an approx. 30 in diameter, designed for heavy-duty use in warehouses, shops, and manufacturing facilities. Equipped with a powerful motor and high-velocity blades, this fan delivers strong airflow to improve ventilation and cooling in large spaces. The included wall-mount bracket with swivel adjustment allows secure installation to walls or structural supports, while providing directional control of airflow. A durable protective wire guard ensures long-lasting performance and safety in industrial environments.
620	Dayton Industrial Wall-Mount Circulation Fan – Approx. 30 in Diameter with Adjustable Bracket	Dayton industrial wall-mounted circulation fan with an approx. 30 in diameter, designed for heavy-duty use in warehouses, shops, and manufacturing facilities. Equipped with a powerful motor and high-velocity blades, this fan delivers strong airflow to improve ventilation and cooling in large spaces. The included wall-mount bracket with swivel adjustment allows secure installation to walls or structural supports, while providing directional control of airflow. A durable protective wire guard ensures long-lasting performance and safety in industrial environments.
621	Lot of (2) Industrial Wall-Mount Circulation Fans – Approx. 30 in Diameter with Adjustable Bracket	Industrial wall-mounted circulation fans with an approx. 30 in diameter, designed for heavy-duty use in warehouses, shops, and manufacturing facilities. Equipped with a powerful motor and high-velocity blades, these fans deliver strong airflow to improve ventilation and cooling in large spaces. The included wall-mount brackets with swivel adjustment allows secure installation to walls or structural supports, while providing directional control of airflow. A durable protective wire guard ensures long-lasting performance and safety in industrial environments.
622	Lot of (2) Industrial Wall-Mount Circulation Fans – Approx. 30 in Diameter with Adjustable Bracket	Industrial wall-mounted circulation fans with an approx. 30 in diameter, designed for heavy-duty use in warehouses, shops, and manufacturing facilities. Equipped with a powerful motor and high-velocity blades, these fans deliver strong airflow to improve ventilation and cooling in large spaces. The included wall-mount brackets with swivel adjustment allows secure installation to walls or structural supports, while providing directional control of airflow. A durable protective wire guard ensures long-lasting performance and safety in industrial environments.

623	Industrial Wall-Mount Circulation Fan – Approx. 30 in Diameter with Adjustable Bracket	industrial wall-mounted circulation fan with an approx. 30 in diameter, designed for heavy-duty use in warehouses, shops, and manufacturing facilities. Equipped with a powerful motor and high-velocity blades, this fan delivers strong airflow to improve ventilation and cooling in large spaces. The included wall-mount bracket with swivel adjustment allows secure installation to walls or structural supports, while providing directional control of airflow. A durable protective wire guard ensures long-lasting performance and safety in industrial environments.
624	Dayton Industrial Wall-Mount Circulation Fan – Approx. 30 in Diameter with Adjustable Bracket	Dayton industrial wall-mounted circulation fan with an approx. 30 in diameter, designed for heavy-duty use in warehouses, shops, and manufacturing facilities. Equipped with a powerful motor and high-velocity blades, this fan delivers strong airflow to improve ventilation and cooling in large spaces. The included wall-mount bracket with swivel adjustment allows secure installation to walls or structural supports, while providing directional control of airflow. A durable protective wire guard ensures long-lasting performance and safety in industrial environments.
625	Lot of (2) Industrial Wall-Mount Circulation Fans – Approx. 30 in Diameter with Adjustable Bracket	Industrial wall-mounted circulation fans with an approx. 30 in diameter, designed for heavy-duty use in warehouses, shops, and manufacturing facilities. Equipped with a powerful motor and high-velocity blades, these fans deliver strong airflow to improve ventilation and cooling in large spaces. The included wall-mount brackets with swivel adjustment allows secure installation to walls or structural supports, while providing directional control of airflow. A durable protective wire guard ensures long-lasting performance and safety in industrial environments.
626	Lot of (2) Industrial Wall-Mount Circulation Fans – Approx. 30 in Diameter with Adjustable Bracket	Industrial wall-mounted circulation fans with an approx. 30 in diameter, designed for heavy-duty use in warehouses, shops, and manufacturing facilities. Equipped with a powerful motor and high-velocity blades, these fans deliver strong airflow to improve ventilation and cooling in large spaces. The included wall-mount brackets with swivel adjustment allows secure installation to walls or structural supports, while providing directional control of airflow. A durable protective wire guard ensures long-lasting performance and safety in industrial environments.
627	Dayton Industrial Wall-Mount Circulation Fan – Approx. 30 in Diameter with Adjustable Bracket	Dayton industrial wall-mounted circulation fan with an approx. 30 in diameter, designed for heavy-duty use in warehouses, shops, and manufacturing facilities. Equipped with a powerful motor and high-velocity blades, this fan delivers strong airflow to improve ventilation and cooling in large spaces. The included wall-mount bracket with swivel adjustment allows secure installation to walls or structural supports, while providing directional control of airflow. A durable protective wire guard ensures long-lasting performance and safety in industrial environments.
628	Industrial Wall-Mount Circulation Fan – Approx. 30 in Diameter with Adjustable Bracket	industrial wall-mounted circulation fan with an approx. 30 in diameter, designed for heavy-duty use in warehouses, shops, and manufacturing facilities. Equipped with a powerful motor and high-velocity blades, this fan delivers strong airflow to improve ventilation and cooling in large spaces. The included wall-mount bracket with swivel adjustment allows secure installation to walls or structural supports, while providing directional control of airflow. A durable protective wire guard ensures long-lasting performance and safety in industrial environments.
629	Global Industrial Wall-Mount Circulation Fan – Approx. 30 in Diameter with Adjustable Bracket	Global industrial wall-mounted circulation fan with an approx. 30 in diameter, designed for heavy-duty use in warehouses, shops, and manufacturing facilities. Equipped with a powerful motor and high-velocity blades, this fan delivers strong airflow to improve ventilation and cooling in large spaces. The included wall-mount bracket with swivel adjustment allows secure installation to walls or structural supports, while providing directional control of airflow. A durable protective wire guard ensures long-lasting performance and safety in industrial environments.
630	Dayton Industrial Wall-Mount Circulation Fan – Approx. 30 in Diameter with Adjustable Bracket	Dayton industrial wall-mounted circulation fan with an approx. 30 in diameter, designed for heavy-duty use in warehouses, shops, and manufacturing facilities. Equipped with a powerful motor and high-velocity blades, this fan delivers strong airflow to improve ventilation and cooling in large spaces. The included wall-mount bracket with swivel adjustment allows secure installation to walls or structural supports, while providing directional control of airflow. A durable protective wire guard ensures long-lasting performance and safety in industrial environments.

631	Industrial Wall-Mount Circulation Fan – Approx. 30 in Diameter with Adjustable Bracket	industrial wall-mounted circulation fan with an approx. 30 in diameter, designed for heavy-duty use in warehouses, shops, and manufacturing facilities. Equipped with a powerful motor and high-velocity blades, this fan delivers strong airflow to improve ventilation and cooling in large spaces. The included wall-mount bracket with swivel adjustment allows secure installation to walls or structural supports, while providing directional control of airflow. A durable protective wire guard ensures long-lasting performance and safety in industrial environments.
632	Custom Pneumatic Sliding Table Router Station	Pneumatic Sliding Table Router Station With Pneumatic Clamping, Linear Guide Slide Table, Adjustable Stop System, and Mounted Handwheel Feed Adjustment, DeWalt Router Head, Pneumatic Assist Actuation, and Safety Mesh Guard, Serial 309-1129
633	Custom Pneumatic Punch Station	Custom Pneumatic Punch with Aluminum Fixture Plate with Profiled Tooling Cutouts, Safety Mesh Enclosure, and Air Line Controls. Includes Pneumatic Actuation System with Regulator and Filter Assembly
634	Custom Pneumatic Router Station - Slider Weep Hole Puncher	Pneumatic Router Station with Dual Pneumatic Clamps, Foot Pedal Operation, Vacuum Assist Port, Marathon Electric Motor, 3/4 HP, 1725–1425 RPM, 208–230/460V, 3-Phase
635	Custom Pneumatic Hinge Drill Station	Custom Hinge Drill Station With Pneumatic Drill, Safety Mesh Enclosure, And Electrical Control Box
636	Custom Milgard Tool & Die Pneumatic Punch Station – Wheel Track Weep Die	Custom Milgard Tool & Die Pneumatic Punch Station With Pneumatic Actuation, Integrated Air Line System, And Safety Enclosure With Steel Mesh Guarding
637	Custom Milgard Punch Assembly	Custom Milgard Punch Assembly With Steel Mesh Safety Enclosure, Pneumatic Foot Pedal, and Integrated Air Line With Regulator Assembly
638	Custom Pnuematic Punch Station - Frame Slider Assembly	With Steel Mesh Safety Enclosure, Pneumatic Foot Pedal, and Integrated Air Line With Regulator Assembly, SN 309-1956
639	Custom Milgard Pneumatic Punch Station – Frame Screw Hole	Custom Milgard Pneumatic Punch Station With Steel Mesh Safety Enclosure, Pneumatic Foot Pedal, and Integrated Air Line With Regulator Assembly
640	Custom Milgard Pneumatic Punch Press Station - Slider PW Cover	Custom Pneumatic Punch Press Station, Model VA6159, With Steel Mesh Safety Enclosure, Pneumatic Foot Pedal With Heavy-Duty Steel Stand, Serial 309-1055
641	10" Dewalt Compound Miter Saw Station	10" Dewalt Compound Miter Saw With Steel Table, Aluminum Side Shielding And Integrated Electrical Control Box
642	DeWalt Routing Station With Pneumatic Control	Custom Pneumatic Router Assembly With DeWalt DW618 2-1/4 HP Router, 120 V, 12 A, 8,000–24,000 RPM, Integrated Air Regulator, Pressure Gauge, Dual-Line Air Feed, and Electrical Control Box
643	Ultra Glazing Bead Weep Punch	Tool & Die Pneumatic Punch Press, Model PX6222, Foot Pedal, Catch Bin With Heavy-Duty Steel Stand
644	Routing Station With DeWalt Router	Router Station On Heavy-Duty Steel Frame With DeWalt DW618 2-1/4 HP Electronic Router, 120 V, 12 A, 8,000–24,000 RPM, Adjustable Aluminum Fixture Plate With Angled Dust Extraction Port
645	Bosch Router Table Station	Compact Router Workstation On Steel Tube Stand With Bosch Hand Router, SN 306-0841
646	Pistorius V51 90° Chop Saw With Safety Enclosure	Pistorius Model VS1 90-Degree Chop/ Cut-Off Saw Mounted In Clear Safety Enclosure, Belt-Driven Motor, In-Guard Dust Collection Port, Two-Hand Anti-Tie-Down Control, Serial 302-0494
647	Pneumatic Vertical Router Shaping Station With DeWalt DW618	Heavy Base Cabinet With Dual Guide Posts And Pneumatic Lift, Adjustable Fixture/Stops, Dust Collection Port, And Control Box; Fitted With DeWalt DW618 2-1/4 HP Electronic Router, 120V, 50/60 Hz, 12A, 8,000–24,000 RPM
648	A-Tech Fiberglass Interlock End Shaper	Enclosed End-Shaping Machine For Fiberglass/Composite Profiles, Tucana IV Head With Safety Hood, Push-Button Controls With E-Stop, Floor Cabinet Base, 440V, SN 316-0061
649	Pistorius 90° Aluminum Cut-Off Saw With Safety Enclosure	Pistorius 90-Degree Aluminum Cut-Off Saw, Belt-Driven Motor With Abrasive Cutoff Wheel, Mounted Inside Heavy-Duty Metal Mesh Safety Enclosure With Pneumatic Assist Door, Foot Pedal Operation

650	Dual Pneumatic Punch/Crimp Press Station On Adjustable Rails	Dual Pneumatic Punch/Crimp Press Station On Adjustable Rails
651	Interlock Notch Router & Mount Line	Conveyorized Fixture Table With Pneumatic Clamps, Twin Router/Notching Heads, Adjustable Stops, Dust-Extraction Hose, Overhead Hose/Cable Hangers, And Operator Control Panel
652	Pistorius Double Miter Cutoff Saw	Enclosed Twin Heads
653	Pistorius Double Miter Cutoff Saw	Enclosed Twin Heads
654	Pneumatic Punch Station With Two-Hand Anti-Tie-Down	Pneumatic Punch Cell With Heavy Safety Cage And Two-Hand Anti-Tie-Down Control, Stand-Mounted CSV-102
655	Sash Puncher with Sliding Shuffle Fixture	Cabinet-Style Electric-Hydraulic Sash Punch Station With Sliding Shuttle/Fixture, Cabinet Controls With E-Stop And Power, Punch Head Mounted Over Linear Rail, For Sash Extrusion Hole Notch Operations
656	Casement Frame Vent Hole Pneumatic Punch	Guarded Pneumatic Punch Station, Yellow Safety Enclosure With FRL/Valve Manifold, Serial 309-0960
657	Frame Balancer-Hole Detent Pneumatic Punch	Guarded Pneumatic Punch Station With Yellow Safety Enclosure, FRL/Valve Manifold, Serial 309-0964
658	Main Frame Weep Gate Pneumatic Punch	Guarded Pneumatic Punch Station, Weep Gate Configuration; Yellow Safety Enclosure With FRL/Valve Manifold, Serial 309-0929
659	Trinsic Picture Window Weep & Vent Pneumatic Punch	Guarded Pneumatic Punch Station, Cuts Weep And Vent Features; Yellow Safety Enclosure With Air Valve/FRL, Serial 309-0976
660	Awning Operator Track & Rubber Pneumatic Punch	Awning Operator Track & Rubber Pneumatic Punch, Serial 309-0947
661	VX8405 Sash Snubber and Awn Track Pneumatic Punch	Guarded Pneumatic Punch Station VX8405 Sash Snubber And Awning Track, Serial 309-0948
662	Main Frame Weep Hole Pneumatic Punch	Guarded Main Frame Weep Hole Pneumatic Punch, Serial 309-0959
663	Milgard Trinsic Fixed Sash Wood Pilot Pneumatic Hole Punch	Guarded Pneumatic Punch Station For Milgard Trinsic Fixed Sash Profiles (VX7258 Series), Performs Weep, Wood, And Pilot Hole Operations, Serial 309-0972
664	Milgard Trinsic Rail/Head Stile Vent/Interlock Roller, Weep & Notchback Pneumatic Punch	Guarded Pneumatic Punch Station For Milgard Trinsic Profiles, Performs Vent/Interlock Roller, Weep, And Notchback Operations; Yellow Safety Enclosure With Air Valve/FRL, Serial 309-0698
665	Milgard Pneumatic Wheel Notching Punch	Milgard Pneumatic Wheel Notching Punch
666	Milgard Pneumatic Sash Punch	Guarded Pneumatic Punch Station For Milgard V4 SH Sash Profiles, SN 309-1015
667	Night Latch/Lift Rail Notch Punch	Night Latch/Lift Rail Notch Punch, SN 309-0951
668	Milgard VX6301 Sash Weep Hole Pneumatic Punch	Guarded Pneumatic Weep Hole Punch For Milgard Sash Profile VX6301, Includes Yellow Safety Enclosure And Air Valve/FRL Assembly
669	Milgard Trinsic Casement Sash Weep Hole Pneumatic Punch	Milgard Trinsic Casement Sash Weep Hole Pneumatic Punch, Model VK7266, SN 309-0953
670	Frame IMR Drill Machine	Guarded Pneumatic Drilling Station For Milgard Frame IMR Profiles, For Constant Force And Jamb Jack Install Holes, Linear Rail Feed With Length Stop, Control Panel With E-Stop, Air Drill Head And Manifolds
671	Punch frame	Punch frame
672	Milgard V6 Main Frame Vent Hole Pneumatic Punch	Milgard V6 Main Frame Vent Hole Pneumatic Punch, Guarded Pneumatic Vent Hole Punch For Milgard V6 Main Frame Profiles, Die Labeled VX5086XX VX5167XX VX6315XX, Includes Enclosure And Air Valve Assembly, Serial# 309-0973
673	Custom Pneumatic Punch Station	Custom Pneumatic Punch Station With (4) Tooling Pockets Labeled Head IMR Constant Force Install Notch, Foot Pedal Actuation, FRL/Valve Manifold, Welded Stand
674	Mayline Stackable Flat File Blueprint Cabinets	APPROX Dimensions: 49.5"x54"x46.5"

675	Heavy Duty Steel, Flat File Blueprint Storage Cabinet	This is a large flat file cabinet designed for storing blueprints, maps, artwork, and other oversized documents. The unit is made from durable steel and includes multiple wide drawers with metal handles for organized storage. Drawers slide smoothly and are built for heavy use. Ideal for architectural firms, design studios, or offices needing professional large-format storage. APPROX Dimensions : 49"x39.5"x51"
676	Heavy Duty Steel, Multi-Drawer Blueprint Storage Cabinet	This is a large flat file cabinet designed for storing blueprints, maps, artwork, and other oversized documents. The unit is made from durable steel and includes multiple wide drawers with metal handles for organized storage. Drawers slide smoothly and are built for heavy use. Ideal for architectural firms, design studios, or offices needing professional large-format storage. APPROX Dimensions : 49"x39.5"x51"
677	Executive Desk With Round Meeting Table And Guest Chair	Executive Desk With Round Meeting Table And Guest Chair
678	Office With Contents - (3) Office Charis, (2) Monitors, Docking Station, (2) desks, (3) Filing Cabinets, Cisco Phone	6'x3' With 4'x2' Bridge
679	Office Cubicle Workstations with Filing Cabinets – Modular Desks, Overhead Storage, Chair, and Drawer Units	Complete set of professional modular office cubicles designed for efficient and organized work environments. Each workstation includes wrap-around desks, overhead storage bins, and under-desk filing drawers. The setup features partial glass panels for a balance of privacy and visibility. Along with the cubicles, this lot includes additional storage solutions: two large 4-drawer lateral filing cabinets and three smaller drawer cabinets integrated with the desks. Durable laminate desktops and sturdy metal framing make these units well-suited for corporate offices, call centers, or shared workspaces. 15'x19'x5.5"
680	Lot of (2) Filing Cabinets	Lot of (2) Filing Cabinets 19"x35"x53"
681	Lot of (3) Filing Cabinets	2"x19"x67" and 22"x15"x53"
682	Lot of (5) Filing Cabinets (3) Red Storage Buckets	18 gallon tubs, 15"x26.5"x52"
683	Lot of (2) Filing Cabinets	3'x19"x28"
